U. S. A. FARMHOUSE.  
The best appointed family hotel in the city. \$1.50 per day up. Special rates to permanent guests. Spacious, airy, cool under glass. Electric cars to and from all parts of the city and depot. Headquarters for N. E. A. Teachers.  
**THE BELMONT HOTEL**—420 Temple Street. Healthy location, near courthouse. PLEASANT HOME, sunny rooms, front suites, glass porch, furnace heat, good board.

## STOLE FROM A JUNGLE

### FIVE THOUSAND REBELS TRY TO SURPRISE AMERICANS AT SAN FERNANDO.

Outposts of the Iowa Regiment Discover the Enemy and the Iowans and Kansans Receive the First Shock of the Filipino Attack.

Montana and Seventeenth Regiments also Engaged—Filipinos Fire Wildly When Funston's and Hale's Gallant Men Blaze Away at Them. Natives Retreat Helter-skelter Leaving About a Hundred Dead and Wounded.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 16.—[Exclusive Dispatch.] The Sun's Manila cablegram, timed 7:30 p.m., says that the recent preparations of the insurgents occupying the country in the vicinity of San Fernando culminated at 4:30 o'clock this morning in a simultaneous attack on the American lines encircling the town. The Iowa regiment held the right of line, the Kansas regiment the left, and the Montana regiment and the Seventeenth Infantry the center.

The rebels, prior to the attack, cut the telegraph line north of Calumpit and destroyed a section of the railroad, with the evident intention of severing communication with Manila and preventing the sending of reinforcements to Gen. MacArthur, who was in command.

Gen. MacArthur reports there are good grounds for believing that Aguinaldo personally commanded the insurgents. The rebel line was more than three miles long. Many Filipinos were brought from the north to take part in the attack, the railroad having been employed for their transportation.

Aguinaldo seems to have thought it possible to capture the town, but he soon discovered his mistake. The American troops did splendid work. The Iowans responded to the attack by immediately making a sharp advance, driving the rebels helter-skelter before them. The Kansans, too, did extremely effective work.

The fight continued for only a short time, the insurgents being repulsed with heavy loss everywhere along the line. The Iowans found 15 dead and 12 wounded Filipinos on their front. The Kansans counted 39 dead and several wounded natives on their part of the field. Early this afternoon Gen. MacArthur reported that nearly one hundred dead and wounded Filipinos had already been found.

More than seventy-five rifles were captured by the Americans. MacArthur says that the insurgents certainly numbered more than three thousand, and that probably nearly five thousand took part in the attack.

When the telegraph failed to work between Calumpit and San Fernando a signal sergeant and three men started out to make repairs. They found that the line had been cut at Apalit, and that the railroad had been torn up for some distance. It was found impossible for the party to do any work, as they were attacked by natives concealed in huts. They returned for reinforcements, and twenty men were assigned to aid them. The line was then soon repaired, supplies being sent from San Fernando. The railroad track was also repaired, and at 10 o'clock communication with the south was re-established. The American loss was 14 wounded, two severely.

It is impossible, as yet, to judge accurately the result of the assassination of Gen. Luna, the native leader. A Filipino who was associated with the Malolos crowd and who is familiar with their methods, said today: "Surely Aguinaldo will be the next one to be killed. The first positive evidence of serious internal dissension among the Filipinos, coupled with the demoralization that will follow when these disasters to the native cause at Zapote and San Fernando become generally known, will probably be another peace commission."

Nothing has been heard from the last commissioners that visited Manila. Their actions on returning through the American lines convinced the American officers that they were really spies. Heretofore the rebels have recovered from their disasters with remarkable quickness. It is quite likely they will now seek to obtain delay by means of another commission, in order that they may recover from the reverses that have befallen them during the past few days.

For the first time in a month mail has just been forwarded from here by the transport Newport. The delay was caused by the desire of the authorities to save mail from the quarantine that has been established by Japan against vessels arriving from Hongkong on account of the plague prevailing there.

## ANOTHER ACCOUNT.

[ASSOCIATED PRESS DAY REPORT.]

MANILA, June 16, 5:45 p.m.—After cutting the railroad and telegraph at Apalit, seven miles south, for the purpose of severing connection, the rebels attacked Gen. MacArthur's lines at San Fernando at 4:30 o'clock this morning. They met with an unexpectedly warm reception, and were repulsed with a loss of seventy-five killed, thirty prisoners and many wounded.

The rebel force, estimated to have numbered 5000 men, advanced stealthily from the jungle north of the city, and then divided with the evident purpose of surrounding the Americans.

The outposts of the Iowa regiment discovered the enemy and retired to their lines, where the entire division waited in an entrenched position.

The Kansas and Iowa regiments received the first shock of the attack. Reserving their fire until the enemy was within 600 yards, the first volley of the Americans hit the rebels, who returned the fire wildly, the rest of their line failing to advance. The Americans, who thoroughly enjoyed the novelty of the situation in awaiting an attack, sallied forth, and the insurgents thereupon turned and fled.

AGUINALDO, HIS ATTACK.

[ASSOCIATED PRESS NIGHT REPORT.]

MANILA, June 16.—Our loss was fourteen wounded, and the majority of them are only slightly hurt. Gen. Funston's brigade of Kansas and Montana regiments, and Gen. Hale's brigade, the Seventeenth Regiment and the Iowa regiment, constituted the force engaged.

Aguinaldo is reported to have personally conducted the attack, and preparations were made for several days to bring forward troops from Candaba, and others from Dagupan were transported by rail. Along the front of the Kansas regiment, thirty-nine dead rebels were counted.

The first news of the Filipino advance was reported by a telegraph operator who was sent to the bridge at Apalit to ascertain the cause of a break in one of the wires. He was compelled to beat a hasty retreat under fire.

A Spanish officer who has been a prisoner in the hands of the rebels, and who was released by Aguinaldo, has come through our lines to Manila. He claims to have been a witness of the assassination of Gen. Luna.

According to his story the relations between the two Filipino leaders had been strained to the breaking point because of Luna's attempts to assume control of affairs, and the final rupture was forced by Aguinaldo issuing secret orders to the provisional government. Luna thereupon notified Aguinaldo, demanding copies of the documents, and Aguinaldo replied curtly that Luna was a general of the army, and that the civil government did not concern him. Luna, on opening the reply at his headquarters in the presence of his officers, exclaimed hotly: "He will be dead tomorrow."

One officer, who was friendly to Aguinaldo, hastened to warn him, and Aguinaldo called together twenty soldiers, fellow-townsmen of his, and stationed them around his house with instructions to kill any one attempting to enter, regardless of rank. Luna appeared the next day and saw Aguinaldo at the window. A member of the guard said: "Aguinaldo has gone to inspect the troops."

Luna then exclaimed: "You are a liar!" and drew his revolver, struck the guard and tried to force an entrance into the house. Before he could use his revolver one of the guards bayoneted him and shot him in the back, and the others stabbed him. In all he had twenty wounds. Luna's aide-de-camp was killed in the same way.

The Spaniard's story has not entirely dispelled the doubts of Luna's death, and bets that he is alive have been made in the clubs. Some believe that Aguinaldo has taken pains to send this Spaniard here with his story in furtherance of some diplomatic scheme, while others suspect that Aguinaldo has been assassinated by Luna's men. Since the Americans withdrew from Candaba recently the rebels have returned and have wreaked vengeance upon those who befriended the Americans. They slaughtered the natives who surrendered the town and dispersed the remainder.

(CONTINUED ON FIFTH PAGE.)

## YELLOW FEVER

### IN CUBA'S CAPITAL.

[BY DIRECT WIRE TO THE TIMES.]

HAVANA, June 16.—

[Exclusive Dispatch.] A special to the New York Journal says that yellow fever in its most malignant form has broken out among the American soldiers stationed about the city wharves. The utmost alarm is felt among American soldiers and civilians alike. One death has already been reported, and there are said to be other serious cases.

The excitement over the outbreak of the dread disease and its particularly dangerous form, is intense throughout the American colony. Plans for evacuating the city are being made rapidly by the residents.

perated the next day and saw Aguinaldo at the window. A member of the guard said: "Aguinaldo has gone to inspect the troops."

Luna then exclaimed: "You are a liar!" and drew his revolver, struck the guard and tried to force an entrance into the house. Before he could use his revolver one of the guards bayoneted him and shot him in the back, and the others stabbed him. In all he had twenty wounds. Luna's aide-de-camp was killed in the same way.

## DALY UNLOADS

### The Copper King Sells His Interests.

Standard Oil Magnates Expend Twenty-three Millions.

The Town of Anaconda and Vast Property Purchased.

Coal and Timber Lands in Montana and Wyoming Mined and Smelters Go to Rockefeller et al, Marcus to Be Manager.

[BY DIRECT WIRE TO THE TIMES.]

SALT LAKE, (Utah), June 16.—[Exclusive Dispatch.] Marcus Daly, of Montana and his partner, the Anaconda Mining Company have sold all their holdings in that company's vast and varied interests to an eastern syndicate headed by John D. Rockefeller for \$23,000,000. Though the transfer occurred more than a month ago, it has never before been made public. The sale leaves Daly with nothing in Montana except his Bitter Root stock farm. He is also pledged not to engage in copper mining in Montana.

Of the \$23,000,000 for which the Daly and allied interests were sold, Daly pockets \$6,000,000. J. B. Haggin gets \$9,000,000 and Lloyd Tavis of San Francisco, \$8,000,000. The properties are purchased by an eastern syndicate headed by John D. Rockefeller and other Standard Oil magnates. In the transfer are included practically the entire town of Anaconda with its mines and smelters, vast timber lands in Montana and Wyoming, and all accessories that go to make up a princely property. Even for this vast sum, however, the purchasers do not become the sole owners. A London syndicate that two years ago bought the interest of the Daly estate for \$7,000,000 still owns that fragment.

Daly has agreed to remain as manager of the entire property for one year. His salary is reported to be \$25,000. At the end of that time he will go on a tour around the world, as he said to a friend, he hopes to be able to forget all about mines and mining. He certainly will not bother himself about business any more.

It is twenty-eight years since Daly, who had been prospecting in the Mercury, Utah, district, went to Walker, Mont., to manage the Alice, owned by the Walkers of this city and himself. In 1880 he laid the foundation of his immense fortune by selling his share of the Alice to Walkers for \$80,000. With the money thus secured he purchased half interest in Anaconda and St. Lawrence, which adjoined it on the east. He then bought a lot of bronchitis and was Charles Larrabee. In 1882, Larrabee sold his entire interest, and Daly sold half of his half to George Hearst and J. B. Haggin. Hearst was dealing for himself, but Lloyd Tavis was jointly interested with Haggin.

The new firm developed into a big outfit. The properties were consolidated under the name of the Anaconda Mining Company; numerous near-by claims were purchased, together with coal and timber lands. From a struggling village of two or three houses, Butte suddenly developed into a bustling city. The mines paid enormous dividends from the start, in addition to leaving enough money in the treasury to pay for improvements. Since that time the company has added mine after mine to its holdings, built the town of Anaconda that a few years ago was a cluster of shacks for capital of the State erected in part by the mine and became a dominant force in the industrial and political life of the State.

## END OF THE GOSSIP.

### STANDARD OIL TRUST STATEMENT WILL SOON BE MADE.

Many Rumors are Circulated on Wall Street, Relative to the Affairs of the Company, but Attributed to Make an Official Declaration.

[A. P. EARLY MORNING REPORT.] NEW YORK, June 15.—Gossip of the past two years in regard to the affairs of the Standard Oil Company is to be disposed of by an official statement to be issued soon by Samuel C. T. Dodd, attorney for the company. Wall street has always had several stories about the adjustment of the affairs of the Standard Oil Company. This week there have been a dozen rumors on the subject. One was that the capital was to be dissolved, another that the reorganization which would consolidate all interests with a capitalization of \$500,000,000, had been decided upon, and new stock on the basis of five shares for one would be issued.

A story that was regarded as without foundation by many was usually well-informed about Standard Oil affairs, was that the company would liquidate, and a new company would be formed with a capital of from \$100,000,000 to \$125,000,000. The scheme outlined composed the exchange of outstanding certificates of shares for dollar, the holding of \$10,000,000 to \$15,000,000 treasury stock and a cash distribution among the holders of certificates.

The new company under this plan would be a New Jersey corporation. It was assumed that the cancellation of the original class of trust which originally amounted to \$97,250,000, had progressed to a point where a reorganization of the company would present little difficulty, and that the decision in this regard was reached at Bayonne, N. J., at a recent meeting of the Standard Oil Company, of New Jersey.

## CHOOSE A PRESIDENT.

## REGENTS OF THE UNIVERSITY PICK PROF. WHEELER.

Cornell Educator Receives Eleven Votes as Against One Vote Each for Professors Jones, Stubbs and Vallandigham.

Salary of the Office Raised to Ten Thousand Dollars and the Students Will Have to Pay a Fee Hereafter.

Native Daughters Elect Officers—Hop Land Case Settled—Shooting of a Ranch Hand—News From the Far North.

**[ASSOCIATED PRESS NIGHT REPORT.]**  
SAN FRANCISCO, June 16.—The regents of the University of California today elected as president Prof. Benjamin Ide Wheeler, at present professor of comparative philology and Greek at Cornell. His salary had been previously fixed at \$10,000 per annum.

Fifteen regents were present and the vote was as follows: Prof. Wheeler, 11; Prof. E. N. Vallandigham of Delaware University, 1; Prof. Joseph E. Stubbs of the University of Nevada, 1; and Prof. William Carey Jones of the University of California, 1. Regent Jacob B. Reinstein, who had been mentioned for the place, did not vote. It is expected that President Wheeler will assume his new duties at once.

The regents elected L. Dupont Slye as associate professor of English, placing him on an equal footing with Prof. Charles Mills Gayley.

## THE SALARY QUESTION.

**[ASSOCIATED PRESS DAY REPORT.]**

SAN FRANCISCO, June 16.—The Board of Regents of the University of California met today with the following present: Regents Miller, Halladay, Denike, Houghton, Budd, H. S. Foote, Rogers, Rowell, Slack, Pardee, Kirk and Belmont. Gen. W. H. L. Barnes, who was appointed several days ago by Gov. Gage to succeed Hon. Timothy Guy Phelps, deceased, was introduced and took his seat.

The special report of the Finance Committee was taken up, the question of the salary of the incoming president of the university being first considered. Regent Foote moved that the salary for the next year be fixed at \$6,000. A substitute was introduced by Mr. Rogers, who thought that \$10,000 was the proper figure, and that this compensation should be the regular salary for the president of the university. Regent Pardee thought the figure too high, and a spirited debate followed. Mr. Rogers holding that the future of the institution depended largely upon the ability of its head, and the salary must be large enough to attract such a person and that a good man could not be secured for less than \$10,000 a year. Regent Kirk thought that \$8,000 was sufficient.

The chair stated the question before the board to be a motion by Foote to fix the salary at \$6,000; a substitute by Rogers to fix it at \$10,000, and an amendment by Kirk to the substitute fixing the salary at \$8,000. The amendment to the substitute was voted down, and the roll call on the Rogers substitute was ordered. This was carried by a vote of 10 to 5. The question was then put on the \$10,000 salary as an original motion, and it was adopted by the same vote, 10 to 5.

## GOLD-LADEN PASSENGERS.

**Two Hundred Klondikers Reach Seattle—News from Skaguay.**

**[ASSOCIATED PRESS NIGHT REPORT.]**  
SEATTLE, June 16.—Two hundred Klondikers arrived here tonight on the steamer City of Seattle. Collectively they had considerable gold dust, but their personal amounts vary greatly. Pursuer Pope said: "About \$400,000 in actual dust is a conservative estimate, I think. I had about \$250,000 placed in my care."

## SKAGWAY OUTCROPPINGS.

**[ASSOCIATED PRESS NIGHT REPORT.]**

SKAGWAY, June 15, (wired from Seattle, Wash., June 16).—A large amount of gold dust and nuggets was landed at White Horse Rapids last Friday, June 9, from the first three steamers to reach that point from Dawson City. Over one ton of it was officially checked off by the officers at White Horse when making the transfer from steamer to steamer. The remainder was divided in packages ranging from ten to seventy-five pounds, carried by the more than thirty passengers of the three boats. They were in all sorts of odd packages and with no attempt at concealment.

Owing to the low stage of water on the lake and rivers, it was impossible for the small steamers from Bennett to reach there before Sunday, and the first lot of sixty-five was landed in Bennett yesterday by the Nora, and reached Skaguay last evening. Another lot of over one hundred reached here at 3 o'clock this morning, and the remainder will get here some time today.

The consensus of opinion gathered from almost every steamer reaching Skaguay was to the effect that the output of the Klondike in the past year would be between \$15,000,000 and \$20,000,000. The lower figure is probably nearer correct. This will about double last year's output.

This gold is brought out largely by the merchants who have been in the Klondike all the way from a year to three years. Only about half of it is from the winter's cleaning-up, and that from Bennett, as sluicing had only about commenced when the steamers left Dawson, about May 1.

Nelson A. Goucher, who has been working claim No. 9 on Eldorado Creek, says that Formosa Creek will surpass all calculations. No. 9 is owned by Mercer and Demers, and will clean up at least \$200,000. No. 17, Eldorado, he believes, will prove to be the richest claim on the whole Klondike. Peacock of Quebec, who owns a half interest, had thirty-seven men at work on it all winter, and the clean-up will be in the neighborhood of \$1,200,000 to \$1,500,000.

Not much work is being done below Discovery, but great activity prevails above it, and the claims are showing up rich. Dominion Creek is going to make a good record and so is Hunker, but it is too early yet to give figures from any of these creeks, owing to the distance and difficulties of the trail to and from Dawson.

to smuggle the dust out of the country. The steamer Columbian was wrecked June 9 by striking a rock six miles below White Horse Rapids. She is a total loss. The Columbian had a large list of passengers, who were transferred to other steamers.

The ice is still troublesome. The Nora, on her way down to White Horse, went through two miles of nine-inch ice on Marsh Lake. At Caribou Crossing the Nora passed three stranded steamers yesterday morning: the Australian, Clifford Sexton and the Glenora. The latter got off shortly after and started for the City. She blew out her cylinder head in Taku Arm and had to tie up to the bank. The water at Caribou Crossing is only eighteen inches deep.

## HUMBOLDT ON ROCKS.

**[ASSOCIATED PRESS NIGHT REPORT.]**

SEATTLE (Wash.), June 16.—The steamer Humboldt, which sailed from here last Wednesday night with 100 passengers for Skaguay, Alaska, is reported on the rocks near Chatham Sound. When sighted by the City of Seattle she was resting easily, and her captain was confident that she would be floated by the next tide.

## HOP LANDS SUITS.

**Interesting Case Tried by Judge Davis of Yuba.**

**[ASSOCIATED PRESS DAY REPORT.]**

SACRAMENTO, June 16.—Judge Davis of Yuba yesterday afternoon rendered a decision in the suits brought by Meibus & Drescher and trustees of Sacramento against Horst Brothers, to enforce a deed of trust made by W. B. and J. W. Roddman upon their hop lands near Wheatland, and a chattel mortgage upon their other hop lands.

The deed of trust and chattel mortgage secured also the performance of certain hop raising obligations. The advances amounted to about \$20,000.

The deed of trust and chattel mortgage secured also the performance of certain hop raising obligations. The advances amounted to about \$20,000.

Judge Davis in his decision declares that such agreements are valid, and awards Meibus & Drescher \$200,000 with interest from October 1, 1937. The total judgment awarded Meibus & Drescher against Horst Brothers will amount to nearly \$70,000.

## MRS. GETT THERE.

**Native Daughters Chose Sacramento Woman for Vice-President.**

**[ASSOCIATED PRESS DAY REPORT.]**

STOCKTON, June 16.—The Grand Parlor of the Native Daughters held a session all the morning, electing new officers and officers-in-training for which had been made yesterday. No other business was transacted at the morning session, and at 12:30 o'clock the election was still in progress, with Grand Outside Sentinel and five Trustees to be elected. Only on the most urgent business was a delegate permitted to leave the hall, and visiting members, who occasionally came as to the result of the election.

It was finally learned, however, that Mrs. Emma Gett of Sacramento was elected Grand Vice-President over Mrs. Genevieve Baker of San Francisco by seven votes. It is said that the friends of Mrs. Baker take the defeat of their candidate very much to heart, as she had attended every Grand Parlor meeting, and this was the first time she had asked for office. Mrs. Baker, in a speech which brought applause from all parts of the hall, acknowledged defeat very gracefully, congratulated her fortunate opponent, and declared that she would work just as hard for the success of the next Grand Parlor and the order in general, as though she had been elected herself.

There was no contest for Grand President, as Mrs. Cora Stafford of Ventura steps into Mrs. Lena Hilke Miller's shoes by right of succession. Miss George C. Ryan of San Francisco was elected to succeed herself as Grand Secretary without opposition.

Miss Elizabeth K. Smith of San Francisco was elected over Miss Lizzie Douglas of San Francisco for Grand Treasurer.

The five Grand Trustees elected were: Mrs. Hannah Gray of Stockton, Miss Harriet Lee of Woodland, Mary Langford of Eureka, Miss Dora Zumwalt of Colusa, and Miss Stella Pinkley of Santa Cruz.

The candidates were Miss Alice Welsh of Lodi, Miss Frances Barton of San Francisco, and Mrs. Lena B. Mills of San Francisco.

At 1:15 o'clock a recess was taken to 2:30, after having been in continuous session since 9:30 o'clock this morning.

## BRILLIANT BALL.

**[ASSOCIATED PRESS NIGHT REPORT.]**

STOCKTON, June 16.—The scene at the ball tendered tonight by the members of the Stockton Parlor of Native Daughters was a brilliant one. The delegates to the Grand Parlor of Native Daughters and visiting guests, was a fitting close of the week of meetings which has formed the thirteenth annual session of the governing body of the ladies' order. The big Agricultural Pavilion was a blaze of electric lights and the handsome decorations of red, white and blue and gold were handsomely arranged.

The big building covers a block of 280x120 feet. The invitations had been limited to about 1000, and most all of the cards were presented at the door.

Most all of the delegates remained to attend, though they had finished the deliberations of the grand body early in the afternoon.

## CALIFORNIA CLIMATE.

**Warm Weather Aids Growing Crops and the Fruit.**

**[ASSOCIATED PRESS DAY REPORT.]**

SAN FRANCISCO, June 16.—The Department of Agriculture has prepared the following summary of the weather and crop conditions existing in California during the past week:

"In the Sacramento and San Joaquin valleys the temperature has averaged from 5 to 8 degrees warmer, for the week, while on the coast and in Southern California it has been normal or slightly below."

"Light showers occurred in the extreme south the morning of the 12th; elsewhere no rain fell during the week. The warm weather was not accompanied by northerly winds, and was therefore beneficial to all growing crops. Wheat is ripening rapidly, and will soon be ready for harvest.

"In some sections barley harvesting has commenced; the yield and quality are good. Haying is nearly completed. Deciduous fruits are being gathered; peaches are yielding a very large crop of good quality. In some sections apples are more plentiful than had been estimated. Grapes were benefited by favorable conditions during the week and promise a good crop. Citrus fruits and walnuts are in good condition."

## A CLEAN RECORD.

**W. B. Fyfe of Stockton Dies of Disease of the Heart.**

**[ASSOCIATED PRESS DAY REPORT.]**

STOCKTON, June 16.—W. B. Fyfe, the well-known searcher of records, died today at his residence, after being confined to his bed for three weeks from disease of the heart. Fyfe had been a resident of this city for a decade. He was a native of Glasgow, Scotland, and had been in the city since he was twenty years of age. He was a member of the "underground-railway" service of ante-bellum days. Many of the records he had searched for were in the basement of Mr. Fyfe's residence, while awaiting a chance to be passed further on toward Canada. Upon the breaking of the railway, he fled to the United States, and was employed by the city, and an ex-chief of the Caledonian Club. He was a member of the Independent Order of Foresters.

## MOORE ON THE STAND.

**Alleged Murderer Tells of His Quarrel With Officer Killooy.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

NEVADA, June 16.—The prosecution closed today in the case of Ed Moore for the murder of Officer Killooy. Attorney Tyrell then stated that the defense proposed to prove that Killooy had, on the night of the killing, made an unprovoked attack on Moore and threatened, pistol in hand, "to do him up."

Moore had for twenty years lived alone in a cabin in the woods and had become insane on various subjects, one delusion being that Killooy was constantly pursuing him and was bent on killing him; that Moore's great uncle and cousin were in asylums for the insane; that his aunt was demented. Moore went on the stand. He remembered clearly every incident of the quarrel to the moment Killooy grabbed him by the shoulders, when was the instant the shooting began. He says that he was struck on the head and beyond that point his mind was blank until he got to his cabin. Then, he said, because he was afraid the mob would tear him to pieces, he said he did not know until he was in jail at Martinez that he had shot Killooy.

## WORKINGMEN'S HOTEL.

**San Francisco Improvement Company Will Erect a Home.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

SAN FRANCISCO, June 16.—The Twinkling Star Improvement Company proposes to erect an immense hotel for workingmen and mechanics where many of the conveniences of a minimum price may be obtained. The proposed building will be similar to that of the D. O. Mills workingmen's hotel in New York City, where comfortable lodgings and board can be secured for a very small sum of money.

The San Francisco Workingmen's Hotel will be an immense brick structure, four stories in height, containing 600 rooms, and will be located on a lot fronting on four streets. The institution is to be for the exclusive use of single men and men not to be provided with room, board, etc., at \$15 a month. It is understood that no transients will be received. The cost of the building is estimated at \$150,000.

## NELSON WILL CASE.

**The Testator Declared to Have Been of Unsound Mind.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

COLUSA, June 16.—In the Nelson will case today Dr. Nelson testified as an expert that Nelson was not of sound mind at the time the will and codicil were executed.

J. W. Goad, the first witness for the defense, testified that at Nelson's request he consented to become executor of the will. Nelson had wanted the executors, Nelson left to the children, but he did not name them. He said Nelson knew all about the will. With Nelson guided Nelson's hand and made his mark, and Nelson signed the will. The signatures were shown to the jury, and the attorneys for the contestants called them "legible scrawls." Goad will be cross-examined.

## WARDEN AGUIRRE'S AIDES.

**His Brother and Thomas McClure Among the New Appointees.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

SAN FRANCISCO, June 16.—At the final session of the Wine Makers' Convention today a modified contract with the grape growers and wine producers was prepared. It will be presented for signatures Saturday, June 24. A resolution was adopted making it necessary for the Wine Makers' corporation to exercise control of at least 55 per cent of the season's output to continue to the end of the season. The price to be paid being fixed, less a pro-rata proportion of the expense of conducting the corporation.

The producer is to receive only nineteen-twentieths of the sale price in cash, the balance being made up with paid-up stock in the corporation at par value. The corporation shall determine the price of the wine, and shall agree to pay extra for vintage above the standard. Frank Furness, a relative of Director Don Ray, has been promoted to turnkey.

Ex-Sheriff Harrison of Marin county has been made chief engineer; Thomas McClure, formerly an under sheriff of Los Angeles county, will be captain of the yard; and Frank Aguirre, a brother of the new warden, will succeed F. W. Reynolds as parole clerk.

## VETERANS IN CAMP.

**Removal of the G.A.R. Takes Place at Petaluma.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

PETALUMA, June 16.—Many delegates to the G.A.R. encampment arrived today, and several hundred old soldiers, many of them accompanied by their families, are sheltered at Agricultural Park. Members of the Women's Veterans Society are also arriving in large numbers.

The encampment was formally opened by a reception at the opera-house. An address by Gen. Shafter, describing the Santiago campaign, was a feature of the encampment of

ing some young horses. Nothing was said or done at which the visitor could have taken offense. Welch says he never even saw the man before. The foreman of the ranch says that some two or three years ago Faustino worked there. Nothing is known of his history lately, though Faustino says he has been in Sacramento until two days ago. He speaks English fluently. Since his arrest, he has been running away from the law, and though the officers do not believe it, the hands being Slavonians, the ranch, upon the breaking of the law, he fired two shots, but only one took effect. There is no hope for Welch's recovery, the doctor says. The ball entered below the left nipple and ranged down, owing to Welch's stooping position in untying his shoes. Neither Welch nor the shooter has a family.

## FRANEY KNOCKED OUT.

**Charles Goff Wins Nine-round Go at San Francisco.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

SAN FRANCISCO, June 16.—Charles Goff of San Francisco knocked out Jim Franey of Cincinnati, the ninth round, before the National Club tonight. The men fought at middleweight.

Goff, who had returned from the East recently with quite a reputation, showed up well in every round, using a particularly effective left jab, which he kept pumping into the face of his opponent. The easterner proved to be a vicious fighter, rushing matters in every round, but was unable to reach a vulnerable point with his hard right swings. In the ninth Goff sent Franey down three times, the last proving a knockout. Goff was 10 to 7 favorite in the betting. A good crowd was in attendance.

Joe Rowan, a local middleweight, won from Dummy Rowan in seven rounds. Rowan was bleeding profusely from a cut over the eyes, and the police stopped the fight.

## WORKINGMEN'S HOTEL.

**San Francisco Improvement Company Will Erect a Home.**

stepfather, Pratt, resulted as had two previous trials, in a disagreement of the jury. It was stated that they stood six to six. Sullivan was taken back to the County Jail. He and his stepfather quarreled with his mother's estate shortly after her death.

THAT FRENCH CABINET.

**The Making of it Entrusted to Waldeck-Rousseau.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

PARIS, June 16.—[By Atlantic Cable.] Senator Pierre Waldeck-Rousseau has accepted the task of constructing a Cabinet, M. Del Casse having declined.

WHY BOINCARE QUITTS.

**[ASSOCIATED PRESS DAY REPORT.]**

PARIS, June 16.—M. Poincare is on his way to the Elysee Palace for the purpose of informing President Loucheur that he declines to form a Cabinet. The reason for the declination is understood to be due to the objection of the Radicals to the presence of Ribot and Barthou in the Cabinet, while M. Poincare wished them to join him in the ministry.

M. Poincare had a long conference with Brisson, Sarrien and Moutet, Radicals, who finally refused to agree to the conditions on which M. Poincare offered them representation in the Cabinet.

played their heads on poles in the public square.

The hostile natives of Cebu are more menacing. Mail advises say hostilities against the Americans have begun there. Col. Hammer, the American commander, has asked for reinforcements, and four companies of the Tennessee regiment have been sent to him from Iloilo. The Nebraska regiment has been ordered to sail for home early next week.

## RUSHING REINFORCEMENTS.

Transporters are Ordered to Carry Soldiers to the Philippines.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, June 16.—[Exclusive Dispatch.] The Sun's Washington correspondent says that Gen. Otis may be able to renew, as soon as possible, active operations against the insurgents. The War Department has issued special orders directing immediate preparation of transports to carry to the Philippines nearly forty-five hundred more troops. The first step in this direction was taken yesterday when the Quartermaster's Department rechartered the Zealandia and the Valencia for service between San Francisco and Manila.

In order that there shall be no delay in the fitting up of transports now at San Francisco, special orders have been telegraphed to Maj. Long, superintendent of army transport service at San Francisco. This order says in part: "Make special effort to have the Zealandia refitted as quickly as possible for return to Manila. It is very important that the Sheridan, Pennsylvania and Zealandia be ready for service at the earliest date practicable."

It is apparent from Gen. Otis's report that the Filipino insurgents have not yet recovered from their defeat at Las Pina. They have not only suffered severe loss through killed and wounded, but in their retreat were compelled to abandon considerable ammunition and several cannon. Just where they will make their stand is uncertain.

The War Department announces that the Zealandia will sail from San Francisco on the 22d inst., and the Pennsylvania will sail on the 24th. The Nineteenth Infantry will probably be the next regiment to leave San Francisco after the departure of the remainder of the Fourth Cavalry and Fourteenth, Twenty-fourth and Twenty-fifth Infantry.

## FILIPINOS DEMORALIZED.

## REPULSE AT IMUS HAS BROKEN THEM UP.

Cavite Viejo Reported by Spanish Prisoners to Be Deserted—Contemplated Reception to the Americans Knocked Out.

(A. P. EARLY MORNING REPORT.)

NEW YORK, June 16.—A dispatch to the Herald from Las Pina by way of Manila says that Spanish prisoners who fled into the American lines from Imus say that the enemy has retreated into the mountains. The Filipinos brought to Imus the bodies of 100 killed and 300 wounded as the result of the recent fighting between Las Pina and Baco.

A contemplated reception to the Americans at Imus was spoiled by the advent of an insurgent column, who is said to have threatened to have the populace killed if they did not leave. Few stayed in the town. The Fourteenth Infantry and one battery of artillery are now garrisoning the place. The people are regaining confidence and returning in spite of threats. Tons of concealed saltpetre and thousands of pounds of antiquated artillery ammunition and broken powder were discovered in the powder house. Large quantities had been thrown in the river.

The panic-stricken insurgents have given up several of their best defensive positions in their flight southward. Cavite Viejo, Aguinado's home, Novleta and the entire region where the Filipinos once thrashed the Spaniards have been deserted after the one battle at the Zapote River.

## DEATH A GODSEND.

Obstacle to Peace Removed by the Assassination of Luna.

(A. P. EARLY MORNING REPORT.)

NEW YORK, June 16.—In an interview in Berlin M. Andr e, the Belgian Consul-General at Manila, declared that Luna's death was a godsend, that he was the soul of rebellion and the most sanguinary man of all Aguinado's army and one who tortured Spanish prisoners and lived by extortion.

Before M. Andr e left Manila for his present visit to Europe, he obtained from the Americans some concessions for Filipino prisoners and was asked to act on his promise.

M. Andr e says the assassination of Luna removed the principal obstacle to peace, which the Americans have now a great chance of speedily securing by a simple victory.

## SAN FERNANDO REPULSE.

Gen. Otis Thinks Aguinado Planned the Attack.

(ASSOCIATED PRESS DAY REPORT.)

WASHINGTON, June 16.—The following cablegram has been received from Gen. Otis:

"MANILA, June 16.—Adjutant-General, Washington: Northern insurgents concentrated large force near San Fernando, and early this morning attacked MacArthur's troops. Enemy quickly repulsed and driven, leaving over fifty dead on field and large number wounded. Enemy in retreat. Our casualties fourteen wounded, mostly very slight. Preparations for the attack in progress several days; believed to be under personal direction of Aguinado. [Signed] 'OTIS'."

## BREEDERS OF TROUBLE.

Anti-Expansionists in This Country Encourage Further Fighting.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, June 16.—[Exclusive Dispatch.] The Sun's Manila cablegram says that the Filipino Junta at Hongkong is extremely active in reporting the operations of anti-expansionists in the United States. It says that the present propaganda against the annexation of the Philippines will affect the American elections, and will soon result in the overthrow of President McKinley and the success of the party which will recognize the independence of the insurgents. There is no doubt these statements give great backbone to the rebels and en-

## PRAISE FOR THE BRAVE.

BRIG.-GEN. CHARLES KING'S REPORT IS MADE PUBLIC.

California, Washington and Idaho Soldiers are Commended for Their Courage During the Fighting at Manila Early in the Campaign.

(ASSOCIATED PRESS DAY REPORT.)

WASHINGTON, June 16.—The report of Brig.-Gen. Charles King, commanding the First Brigade, First Division, during the fighting at Manila early in the campaign, has been made public at the War Department. This brigade, composed of the First California, First Washington and First Idaho regiments, saw some very hard fighting.

It was while executing an order from Gen. King that Maj. McConville fell, leading his men of the Idaho regiment. Gen. King calls attention to the fact that the losses of his brigade were greater than those of any other brigade in the corps. He also says that the damage inflicted on the enemy was very great, his men having buried 153 of the Filipinos. He adds: "I beg leave to call attention to the fact that this is the only exclusively volunteer brigade in the corps, and that it fought with the same dash, dash and discipline of its comrades, the regulars."

And now there devolves on me a duty that I feel in accepting. I saw no instance of shirking—I saw many of daring leadership on the part of the officers and of devoted following on the part of the men. I shrink from discriminating, yet I should not deserve the faith of the command of which I am so proud were I to fail to publicly mention the officers who, acting under my orders, were most conspicuous. My regimental commanders, Col. Smith, First California; Col. Wholley, First Washington; and Col. First Idaho, bore themselves with marked bravery and ability. Wholley being killed under the heaviest fire for the longest time, his maiden fight at that. Maj. McConville died proudly, heading his men in the dash on a dangerous line. Maj. Weisenburger of the First Washington was an example of soldierly bearing throughout.

Capt. Porton was in command in Pandacan Island, which was mostly exposed, and he and Capt. Whittington, First Idaho, won my admiration for their daring assault on a fiercely defended position, the redoubt across the Concordia. Capt. Otis, First Washington, with his cheek and ear torn by a bullet, led his company from start to finish. Their loss of twenty-five killed and wounded in one company shows what they had to fight through. Lieut. Erwin and Lieut. First Washington, the former severely wounded, were notably cool. Capt. Dyer and Lieut. Hawthorne of the artillery won the plaudits of the men for consummate skill and coolness, and for the commendation of others in the line. I did not see, I must refer you to their reports as to the bearing of their officers and men.

Every man on my staff, from the senior rank, Brigade Surgeon Maj. Sheld, down to our mounted orderlies, won my thanks and admiration. Maj. Sheld was constant in his attendance under the heaviest fire. Lieut. Merriam, Third United States Artillery, and Hutton, First California, were time and again compelled to risk their lives in carrying orders along the line. Capt. Saxton was systematic in the field hospital. His horse and Lieut. Merriam's gave out at Concordia bridge, but they followed through across the fields. Capt. Handy, brigade commissary, carried out his duties under the fire of the enemy instead of the roof of his office. The three orderlies, Privates Clay G. Mills, Co. D, First Washington; Edward C. Hanford, First California; and Spencer G. Lane, First California, were under heavy fire constantly and are soldiers their State should be proud of. "On the 16th of June, 1899, I must not omit that of Lieut. Col. Duboce, First California, must not be omitted. He had a difficult and hazardous task in wiping out the cowardly and treacherous band of the church, and from within the walls of apparently peaceful homesteads, for a time kept up a treacherous fire with orders or messages. I saw his work long hours after it was finished, and it was well done."

## ASSASSINATION DENIED.

(ASSOCIATED PRESS DAY REPORT.)

LONDON, June 16.—The Filipino Junta here says there is no truth in the report circulated and mailed to the United States that Aguinado had been assassinated.

## HEALTH AT MANILA.

REPORTS OF MEN DYING LIKE FLIES ARE FALSE.

Comparative Statements of Conditions in Cuba and the Philippines Shows Immunity from Death and Disease in the Archipelago to Be Almost Miraculous.

(A. P. EARLY MORNING REPORT.)

NEW YORK, June 16.—Statements to the effect that men around Manila are dying like flies and that the War Department has been compelled to suppress the regulation health reports, turn out to be false, but serve the purpose of bringing out the fact that the health conditions in the American army under Gen. Otis would not astonish people here.

Compared with that of last summer in Cuba, the immunity from death or serious illness of the American troops fighting outside of Manila seems little short of miraculous. From the landing of Gen. Anderson's first military expedition near Cavite, June 30, last year, up to the last weekly report of the health of the troops, only 364 deaths have been reported from disease, although the total force has been 40,000 men. In the same period, sixty-nine deaths have been reported from disease. In view of the notorious insalubrity of Manila and its environs, these figures are almost incredible. They challenge the health of the army. The experience in Egypt or India, and the surpass even the excellent conditions that exist in Cuba, where there is no fighting and the men are not exposed to the elements, but have comfortable garrisons. Men drowned or who have died from injuries secured otherwise than in battle are counted in the total of 364.

This total is interesting compared with that of the men killed outright in action with the Filipinos from Feb-

## MUNYON'S QUICKEST, SUREST, RELIEF IMMEDIATE. INHALER.

Positively Cures Catarrh, Hay Fever, Colds, Coughs, Asthma, Bronchitis and all Diseases of Throat and Lungs. It Strengthens the Lungs and Prevents Consumption.

It is so Simple That Even a Child Can Use It. Clouds of medicated vapor are inhaled through the mouth and emitted from the nostrils, cleansing and vaporizing away the disease. The air passages are instantly cleared and purified. It reaches the sore spots—kills the germs—restores the system—drugs taken into the stomach cannot reach it—acts as a balm and tonic.

PRICE \$1.00. With everything complete. At all druggists, or sent from our office by mail.

CURE BEGINS WITH FIRST INHALATION. If you have Rheumatism take my Rheumatic Cure. If you have Dyspepsia take my Dyspepsia Cure. If you have Kidney Disease take my Kidney Cure. 50 Cures for 37 Ailments. Mostly 25c a vial. Write Prof. Munyon, 1249 Arch St., Philadelphia, for free medical advice on any disease.

## Barker Bros.—Always the Lowest.

How do you know you're saving on your Furniture if you don't get our prices?

BARKER BROS., Furniture—Carpets—Draperies, 420-22-24 S. Spring.

ONLY The best quality Malmstrands used in the manufacture of our goods. Prices reasonable.

W. J. Getz, WATCHMAKER, 239 S. Broadway.

February 4 to June 6, covering the period of active hostilities. In these four months, with an average of 7000 men engaged, the killed were 28. This great disparity demonstrates what improvement has resulted from the experience of the Santiago campaign, when 3000 men from disease and only 260 were killed.

In fact, the health question in the Philippines has apparently lost its novelty, and no question having been raised about it from this side of the ocean, no recent cable reports from Gen. Otis contain any allusion to it.

## THEIR SEVEREST SHAKES.

(ASSOCIATED PRESS DAY REPORT.)

MANILA, June 17, 10 a.m.—An earthquake shock was felt at Iloilo at 3 o'clock yesterday afternoon. The inhabitants say it was the severest ever known. It is supposed that the shock was caused by the volcanic eruption of Negros, while in eruption. An eruption was heard under Iloilo, followed three seconds later by the shaking of the earth.

## How to Grow and Eat Chiles.

THE recent placing in Chicago of a considerable order for chile Colorado with a dealer in this city, calls attention to the pleasure and modest profits that may accrue from planting a patch of these hot peppers upon an uncultivated part of a city lot.

This shipment is probably the forerunner of many more, and if so, the death blow to the venerable and time-honored theory that the large use of fiery condiments is probably confined to the nations of hot tropical or semitropical countries.

Chile peppers are a wonderful corrective and stomachic, and their use in the tropics of this continent is a protective incident growing out of the undue amount of fats used in Mexican cooking.

Everything practically in their home menu is frito or guisado, i.e., fried or stewed, in bounteous quantities of lard or grease. Indeed, the Mexican uses all rhyme and reason should die thirty dyspeptic deaths by the age of 30, rarely if ever dies except by violence.

Of inanition, or inanition, which endings may be attributed, let us say, to the holy-benevolent virtues of this delectable vegetable.

Let us devote a patch of the garden thirty feet square to growing a few chiles. Planted at three feet each way it will require 100 plants, enough at a cost of 40 or 50 cents for the hundred.

Books will tell you how inexpensively they may be reared in a hotbed, but until you have time for a few years' preliminary schooling in hotbeds I recommend you not to play with them.

Get the common Mexican chile. The so-called "Improved" varieties are mostly mongrels with enough of the "long red" or "bell" in their blood to destroy the flavor, which is the real virtue of the Mexican variety. Plant out in the cool of a May or June evening; firm the soil about them well, water copiously, and you will find they will move as easily and successfully as a Filipino army.

Now, at the very start, you must determine if your objective point is to be a winter's supply (and surplus for sale) of red peppers; or, if you are to be lured away by a lust for the toothsome and succulent early green pepper. You cannot have both on the same plant. If the first named be the goal, the patch must be heavily manured and liberally plied with water in impoverished soil, and when well established be almost parsimonious of water. This will stunt growth and result in premature early flowers and fruit.

We supposedly desire a mature crop, so must grow the bushes with stimulus of water, manure and cultivation until they cover the ground, exclude the sun, and compel the production of big late fruits. Examine them cautiously for the stem and leaves (they are brittle), and as soon as a few have begun to color slightly it is time to gather any that are turning, taking away the water, manure and cultivation until they cover the ground, exclude the sun, and compel the production of big late fruits. Examine them cautiously for the stem and leaves (they are brittle), and as soon as a few have begun to color slightly it is time to gather any that are turning, taking away the water, manure and cultivation until they cover the ground, exclude the sun, and compel the production of big late fruits. # NEW

## OPENING

# Today

The 17th of June.

**Parmelee-Dohrmann Co.**

232-234  
S. Spring St.  
Los Angeles.

The Town Crier says:

"It's new, All new."

**WE** do invite all fair women and brave men of this town and countryside to visit us at our new store, numbered 232, 234 on Spring St.

We have arranged for a very pleasing promenade concert to inaugurate the opening of "China Hall," as we are pleased to have it known.

The store is the finest and lightest in the city. The goods are new, the firm, the store, fixtures, methods, everything is new, clean and bright. So come and spend with us a pleasant hour.

The music will be made from 2:30 until 5, and in the evening from 8 until 10 of the clock.

**Parmelee-Dohrmann Co.**

## A Full Set of Teeth Only \$5.

We make four or five \$5.00 plates per day. If they were not good people wouldn't have them. Several thousand of these sets are being worn right here in Los Angeles today. Look natural, and are giving satisfaction.

The fact that we advertise does not prevent our doing good work.

All business men understand that to do business one must advertise.

### Flexible Rubber Dental Plates

Have many advantages over the old thick, cumbersome, ordinary rubber plates, and even over gold plates, being much lighter and thinner.

These plates are flexible, only a trifle thicker than heavy writing paper, fit closer and adhere better to the roof of the mouth. Particles of food and small seeds cannot get under them. They will last longer, are stronger than any others, and will not break, as they will give, being flexible. Once tried none other will be desirable. Dr. Schiffman's own process, and the notice of the public by his own, and made ONLY by us. A perfect fit guaranteed in every case of plate work.

Persons having trouble with their plates or in having plates fitted, are invited to call and consult us.

Beware of Cheap Imitators and Professional Jealousy.

## It is Folly to Pay Higher Prices Than Ours

For fine Dental Work. Our modern methods enable us to do the very best dental work of all kinds, without pain, at prices within the reach of all.

**Our Guarantee is Good.**

We refer you to the Merchants' National Bank and people we have done work for. EXTRACTING PRICE from the Dr. Williams' is the very best. None better can be had anywhere, no matter how much you pay. Consultation and examination free. Lady attendants for ladies and children. Open evenings and Sunday 4-noon.

See our display of Modern Dental Work at our entrance.

Second-hand Fumigating Tents

**DECOY PRICES...**

The absurdly low prices for dental work that are sometimes advertised are not real prices. They are decoys, and their object is to entice the unwary within the "shotting" range of the advertiser's snare arguments. Almost the first thing that you will be told about these low prices is that they are not for the kind of work that you want.

The best work does not need to be attracted by such decoys—and fair charges do not need to be hidden behind them.

### RAILROAD RECORD.

#### FOURTH OF JULY RATES.

##### Kite-shaped Track Specials, Next Month—Personals.

The Santa Fe will put on a series of specials around the Kite-shaped track, to run during the month of July. The first will leave this city July 4, and thereafter one will go each Tuesday, Thursday and Saturday, beginning July 11, and ending July 23. These will all leave La Grande depot at 9 a.m., and go out by Pasadena. They will return by Orange and Anaheim, but will run through to Pasadena to accommodate people from that city.

For the Fourth of July the Santa Fe will run all the Sunday specials to Redondo, and for that day a one and one-third rate for the round trip will be made from all points on the Southern California lines to Los Angeles and return. These tickets will be on sale July 1 to 4, inclusive, and the return limit will be July 5.

To the Christian Endeavor meeting at Detroit, Mich., July 5 to 10, the tickets, rates on which have heretofore been published, will be on sale for one day only, June 23, from all California points, and June 29 from all points in Arizona and New Mexico.

Paul Faguet, inspector of the French steamship line, the General Transatlantique, is here on a pleasure and business visit. Mrs. Faguet is with him, and they are taking a look over this section. They are from New York.

Valencia, the agent of the Canadian Pacific at Tacoma, who has been here for some days, went to San Diego yesterday.

W. M. Atchison, the Oregon Railroad and Navigation Company at San Francisco, has gone on to San Diego for a day or two.

#### A Boy on Breath.

[Washington Star.] A boy 14 years old, recently imported from Kentucky, handed the following as a composition on "Breathing." The instruction was, "Tell all you can about breathing." He said: "Breath is made of air. Wet breathe with our lungs, our liver and kidneys. If it wasn't for our breath we should die when we slept. Our breath keeps the life going through the nose when we sleep. Boys that stay in a room all day should not breathe. They should wait till they get out of doors. Boys in a room make bad, unwholesome air. They make carbonic acid. Carbonic acid is poisoner than mad dogs. A heap of soldiers was in a black hole in India, and all of them died. That's where there hole and killed every one afore morning. Girls kill the breath with corsets, that squeeze the diaphragm. Girls can't holler or run like boys because their diaphragm is squeezed too much. If I was a girl, I'd rather be a boy, so I can holler and run and have a great big diaphragm."—[Washington Star.]

**The Maid and the Miracle**

Miss Lucy Tucker, the daughter of a prominent farmer of Versailles, Ind., was the victim of nervous prostration. Most of the time she was confined to bed, and was on the verge of St. Vitus' dance. It was a pitiful case which medical science failed to conquer. Finally a doctor prescribed Dr. Williams' Pink Pills for Pale People. Her father said:

"We began giving the pills at once, and the next day we could see a change for the better in her. We gave her one pill after each meal until she was entirely well. She had not been sick a day since. We think the cure almost miraculous."

**FRANK TUCKER, Mrs. F. TUCKER.**

Mr. & Mrs. Frank Tucker, being fully sworn, state that the foregoing is true in every particular.

**HUGH JOHNSON,**  
Justice of the Peace.

—From the Republican, Versailles, Ind.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and vigor to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, neuritis, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion, and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages of 50 pills. At all druggists or direct from the Dr. Williams' Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.

### RESCUED HER MOTHER.

#### MRS. LEHMAN THOUGHT HER MA WAS HYPNOTIZED.

##### Engaged the Services of a Policeman to Break the Spell and Rescue Her Parent from the Clutches of a Superhuman Diabolicalist.

Mrs. Edna Lehman (née Larkin), wife of a Fourth-street fishmonger, invoked police interference, Thursday afternoon, to rescue her mother, Mrs. George C. Larkin from the clutches of "Dr." Frank N. Martin, who, Mrs. Lehman alleged, was detaining her mother, through hypnotic influence, in a room of the Leone lodging-house at No. 14 South Main street. Through the friendly offices of Police Officer Bert Smith the alleged hypnotic spell was broken and Mrs. Larkin was restored to the arms of her loving daughter, but not without some difficulty and subsequent developments of a rather racy character.

Mrs. Lehman, who, by the way, had had a few troubles of her own, both before and since her marriage, was in a greatly perturbed state of mind when she and her husband met Officer Smith and appealed to him to try to the rescue of the imprisoned parent. The officer accompanied the excited couple to the house in question, and after awaiting in the hallway about half an hour in the hope that Mrs. Larkin would come down of her own free will, the policeman made bold to knock at the door of room 33 and demand, in the name of the law, that Martin and his companion come forth. They came, but both were highly indignant at having their privacy thus intruded upon.

"Are you going with me now?" asked Mrs. Lehman of her mother.

"You'd better go with me," chimed in the "doctor," returning toward his room.

Mrs. Larkin halted between two opinions, the alleged hypnotic spell evidently not having been completely broken, as yet.

"He swears he'll kill us all," said the mother to the daughter.

"Yes, I've heard this man has killed twelve men," said Mrs. Lehman.

Martin promptly repeated his alleged man-killing proclivities, and declared that he had no blood-thirsty designs whatever. He had merely been transacting some business for Mrs. Larkin and there was no occasion for all this row.

Eventually Officer Smith persuaded Mrs. Larkin to go away by telling her daughter and son-in-law. After the officer was left alone with Martin, the latter said: "Now, I'll show you who I am and prove to you that I am all right."

With that he presented his card, which bore the inscription:

**FRANK N. MARTIN,**  
Diagnostician of Diseases by Superhuman Power.

Can ascertain, locate and describe the disease of any patient without asking a question or seeing him.

Besides, the "superhuman power" claimed by the "diagnostician," he also exhibited a power of attorney signed by Mrs. Larkin, authorizing him to dispose of certain real estate in her name. This instrument was dated at San Bernardino, June 6, and Martin had already made use of it to sell a piece of real estate in Pasadena, the money for which, however, had not yet been paid over. It was in connection with this business, Martin said, that Mrs. Larkin visited his room. The bringing of her comb, brushes and other utilities of the toilet was a mere incident. The business required some time to adjust, and Mrs. Larkin might be detained in the city all night.

Mrs. Larkin, it should be explained, is the wife of a well-to-do resident of Denver. He lived for some time with his wife and daughter at South Pasadena, and was a case in justice property in Pasadena. In order to help to make ends meet, Mrs. and Miss Larkin, now

Mrs. Lehman, having occasionally taken boarders at their South Pasadena home, "Dr." Martin's manner became a temporary inmate of the house, and thus the intimate relations, which the daughter called hypnotism, arose. Mrs. Larkin became so interested in the "diagnostician of diseases by superhuman power," that she planned to sell her real estate and use the proceeds to go into partnership with the "doctor" in the manufacture and sale of patent medicines. That is how the power of attorney came to be given.

Mrs. Lehman, lately married, did not seem to approve of the arrangements made by her mother to dispose of the family property. She alleged that real estate worth \$3500 was about to be sacrificed for about \$1200, and, in her opinion, Martin was getting decidedly the best of the bargain. Hence her efforts to break the "hypnotic spell," which appears to have been successful. The power of attorney was revoked June 14, and yesterday Mrs. Larkin served notice on the abstract company having the matter in charge, not to allow the money in the bank to be sold which Martin made, to be paid over to Martin. Martin's lawyers, however, say there is nothing to prevent the deal which he made from going through.

Yesterday Mrs. Larkin and her daughter called upon Chief of Police Glass and told him their tale woe. They wanted to know what they could do with Martin. The Chief said nothing that he knew of, unless it would be to have him arrested for making threats. This they did not see fit to do.

Chief Glass yesterday sent Detective Steele and Officer Ritch to invite Martin to come to the Chief's office. Martin declined to do so before he consulted with his attorneys, Dyer & Porter. Mr. Potter accompanied him to the station, but the Chief said no necessity for the presence of a lawyer at the interview which he desired to have with Martin. So Mr. Potter obligingly withdrew, but was afterwards called into the conference. After questioning the "diagnostician of diseases," the Chief came to the conclusion that he had not used hypnotic power nor even superhuman power to induce Mrs. Larkin to grant her power of attorney and to visit Martin's room in the cheap Main-street lodging-house. Hence Martin was allowed to go his way rejoicing.

Martin has placed in the hands of his attorneys a package of rose-tinted billets-doux which he received from Mrs. Larkin within the last few months, for use in case she should refuse to marry him. The contents of these letters would tend to show that Mrs. Larkin, although old enough to be a grandmother several times, is not too near the red and yellow period of life to be exempt from the tender passion called love. Indeed, Martin avers that it required no hypnotic influence, nor yet exercise of his "superhuman power," to win Mrs. Larkin's affections. She not only came to see him in Los Angeles, but paid him a visit in San Bernardino while he was trying to diagnose diseases and things in that city. His flirtation with the buxom dame was a dear one to him, he alleges, as he had to pawn his clothes and a valuable collection of medicines to keep up the expenses of the Larkin establishment.

Mrs. Larkin, in answer to a question regarding her relations with Martin, yesterday said she never went to his room to get back papers by which he was trying to get away with her property. She did not think she had been hypnotized, but simply imposed upon. She had revoked her power of attorney and now thought her property was safe.

Mrs. Lehman denounced Martin as a quack who made a business of deluding and swindling women.

Mrs. Lehman gained notoriety about a year ago by having newspaper columns who had been rooming at the Larkin home, arrested on the charge of making threats to kill her with an axe because she refused to marry him. The unlucky journalist denied that he ever desired to wed the fair Edna, but he was charged with the crime of making threats to kill her with an axe because she refused to marry him. The young woman has also figured in several other sensations, the latest of which was by having newspaper columns who had been rooming at the Larkin home, arrested on the charge of making threats to kill her with an axe because she refused to marry him. The unlucky journalist denied that he ever desired to wed the fair Edna, but he was charged with the crime of making threats to kill her with an axe because she refused to marry him.

The young woman has also figured in several other sensations, the latest of which was by having newspaper columns who had been rooming at the Larkin home, arrested on the charge of making threats to kill her with an axe because she refused to marry him. The unlucky journalist denied that he ever desired to wed the fair Edna, but he was charged with the crime of making threats to kill her with an axe because she refused to marry him.

"What are you laughing at?" the newcomer asked. "It may be a joke to you, but it's no laughing matter to me. I heard a new-comer expostulating the interpreter in the corridor of the Hotel Oriente. We old stagers all laughed. We knew what was coming, but we contented ourselves with a smile."

"What is it that you desire?" he said, finally.

"Desire?" the newcomer snapped out. "I desire a mattress at least, two sheets, a quilt, a pillow, a blanket. I'll go now and see the proprietor," said the interpreter, for that was what he always said.

"I got up and saw the proprietor raised the mosquito netting, and found that there wasn't a thing for me to sleep on."

We all smiled pityingly and went on with our tales of camp and the firing line. There was no use of trying to tell a newcomer that here in Manila we never used a mattress, a set of springs, a pillow or a sheet. We had come so far to learn by personal experience had we read him a homily on Philippine customs. The interpreter soon returned, and I heard him saying: "The proprietor says, sir, that he will have you sent a sheet, but he is sorry to say, sir, that he has no mattress or a quilt, nor a pillow, except the bolster that is on your bed."

The language of the newcomer that followed is unfit for publication. The mattressless and quiltless Filipino bed is a characteristic of the country. It is the one thing that is suitable for the climate, and we soon learned to respect this skeleton of a bed, the perforated cane bottom of which enabled us to keep cool in the hottest weather. It is quite a jump, though, from comfortable tick and linen sheets to a bed no softer than the seat of a cane chair, but once taken to the tropics, it becomes essential to comfort and rest.

**SUBURBAN HANDICAP.**

A full description of the Great Event to be Taken by Black & Co.

A full telegraphic account of the great Suburban handicap at Sheepshead today, one of the classic events of the year, will be received by Black & Co., 143 Broadway. ## THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, June 16.—[Reported by George E. Franklin, Local Forecast Official.] At 5 o'clock a.m. the barometer registered 30.04; wind, S.W. 5 m.p.h.; thermometer for the corresponding hours showed 56 deg. and 66 deg. Relative humidity, 5 a.m., 100 per cent.; 5 p.m., 82 per cent. Wind, 5 a.m., southwest, velocity 5 miles; 5 p.m., southwest, velocity 5 miles. Maximum temperature, 76 deg.; minimum temperature, 56 deg. Barometer reduced to sea level.

## DRY BULB TEMPERATURE.

Los Angeles ..... 56  
San Diego ..... 50  
San Francisco ..... 50  
Weather Conditions.—A trough of low pressure extends from Arizona to the Sacramento Valley, with gradients increasing toward the coast and northward. Clear, warm weather results in the great interior valleys, and cloudy mornings with fog on the southern coast. A light shower of rain has fallen at Omaha. Otherwise no rain is reported from stations east of the mountains, where generally clear weather prevails.

Forecasts.—Local forecast for Los Angeles and vicinity: Cloudy tonight, with fog in low portions, becoming clear and moderately warm by Saturday noon; western 5 p.m. to 25.8. SAN FRANCISCO, June 16.—The following maximum temperatures were reported from stations in California today:

Eureka ..... 60  
Fresno ..... 70  
Los Angeles ..... 76  
Red Bluff ..... 104  
San Luis Obispo ..... 110

San Francisco today: Maximum temperature, 66 deg.; minimum, 54 deg.; mean, 60 deg.

The pressure has remained nearly stationary over the country west of the Rocky Mountains. It is slightly higher over the northern half of the Pacific Slope. There has been a further rise in temperature over the country west of the Rockies. Maximum temperatures of 110 deg. are reported in the wheat-growing sections, but as yet there has been no high northerly wind to damage the grain. Fog prevails along the coast from Eureka to San Francisco. The temperature at an elevation of 2000 feet near San Francisco is nearly 30 deg. warmer than sea level.

Forecasts made at San Francisco for thirty hours, ending at midnight, June 17:

Northern California: Fair Saturday; continued warm weather in the interior; light north winds in the valleys; fresh winds on coast.

Southern California: Fair Saturday; continued warm weather; light northwest winds; fog on the coast in the morning.

Arizona: Fair Saturday; continued warm weather.

San Francisco and vicinity: Fair Saturday with fog in the morning; fresh westerly winds in the afternoon.

The Times' Weather Record.—Observations made at 1 p.m. and midnight, daily:

June 16—  
Temperature ..... 73  
Hydrometer ..... 66  
Barometer ..... 29.60  
Weather ..... Clear  
Maximum temperature, 24 hours ..... 78  
Minimum temperature, 24 hours ..... 60

## ALL ALONG THE LINE.

The Alameda Encinal says it would be an "Anachronism" to send to Maine for granite for the San Francisco post-office building. It could also be an iconoclasm and several sorts of a compound, comminuted colloquialism, yet there are rafta of good sensible men and women who will unhesitatingly say, if eastern stone is brought to this coast, that it was due to a plain leg-pull by the contractors on the illustrious commissioners. And they will be right.

The Tuna Club of Avalon is arranging through its president to give the great catches of edible fish made at the island to the Associated Charities of Los Angeles to be distributed to the poor. The gifted prevaricators of this aggregation of fishermen, some of whom can warp a pine plank when describing a day's fishing, have thus disarmed future critics and raised the good name of American sportsmen several notches. The ecclesiastical mountebank and moral charlatan will have to slip a cog and join with all hands in praising this truly Christian act.

It is most gratifying to note, as in the case of Pomona, that our own teachers are fully imbued with the importance of the great meetings to be held in Los Angeles, and what is more to the purpose, are awake to the fact that they are necessary factors for the general success of the undertaking. Pomona's school exhibit will be a good one, and it is hoped that all the southern counties will arrange and send in instructive and pertinent exhibits of educational media and results of their coast. It is the condition we would show to our eastern visitors, and not the theory.

Much maudlin sympathy is expressed in the Pacific Coast press for the poor captain who sailed his ship 1200 miles out of his course because the names of two towns sounded much alike. There are blockheads afloat as well as ashore, and why this man should be commiserated for such a blunder is a mystery. So great a blunder in every-day city affairs would draw down upon the guilty man's head the thunders of condemnation from these same editors, is hard to understand. It is more than likely that the Board of Underwriters will make his certificate pay the penalty of his stupidity.

It was generally known that Time with healing on her wings would sooner or later set the mental processes of Pasadena right and cure the cock-eyed politics of several of its distinguished residents. Now comes an unbidden inspiration to the City Trustees to bid diseased cows that cannot pass the tuberculin test, and thus set the Occidental Athens on its feet again; for while some say it is natural coarseness that all the politicians there, and others that it is total depravity without a saving clause, the fact remains that it is tuberculosis of the brain, resulting in corns on the conscience.

One who is not a kicker said, recently, "I can understand why disreputable men and women are allowed to flaunt their shame on the public thoroughfares; I can also understand why some members of the 'force' can be insolent to their superiors; but I cannot for the life of me tell why it is that the conductors of street cars who run past the short blocks from Tenth to Thirtieth streets are always wringing up their trips when they pass the district mentioned, and cannot see the frantic men and women who yell and shake umbrellas to attract their attention. The bisecting blocks are very long, and so are the waits between cars as the disappointed citizen knows by his sorrow." The conductor who fails to keep on the lookout for intending passengers is to be found all along the car lines, including the Pasadena electric, and his perverse obtuseness is simply maddening.

## HOLLAND AND BRESEE.

### FURTHER PROCEEDINGS IN THEIR IMBROGLIO YESTERDAY.

The Coroner Swears to a Complaint Against the Undertaker and the Latter Will Be Arraigned in the Justice Court Today.

Coroner Holland gave himself a short breathing spell before swearing to the complaint which he had caused to be drawn up against Undertaker E. H. Breesee. He was last yesterday afternoon before Dr. Holland attached his signature to the document which was issued out of Justice Morgan's court.

Coroner Holland has retained Attorney F. W. Burnett as special counsel to assist in the prosecution of Mr. Breesee for the alleged interference of the latter in the holding of an inquest upon the remains of Mrs. George Hanchette, who was murdered by her husband Wednesday morning. The Coroner has evidently decided that silence is golden as the refuses to discuss the matter with reporters.

In his complaint Dr. Holland alleges that on June 14, in the city and county of Los Angeles, a misdemeanor was committed in the person of E. H. Breesee, by unlawfully obstructing, delaying and resisting a public officer, to-wit, the Coroner, in the holding of an inquest upon the body of George Hanchette, who was killed by her husband, Earl Hanchette; that the obstruction, delay and resistance consisted in the wilful and unlawful holding of the body, without authority of, against the wishes and contrary to the decisions of the Coroner from the Columbia Hotel, where the tragedy occurred, and refusing to deliver the body to the Coroner for the purpose of holding an inquest.

E. H. Breesee, who is named in the complaint as one of the defendants, is not an employe of Breesee Bros., as has been stated, but is a traveling man representing an undertaker's supply house of Springfield, O. Mr. Shafer, formerly of Breesee Bros., who was called to take charge of the remains, and accompanied E. H. Breesee to the Columbia Hotel, where the tragedy occurred.

As soon as Breesee learned that a complaint had been issued against him he appeared in Justice Morgan's court and was allowed to go on his own recognizance. He will appear today at 12 o'clock for arraignment.

## A COLLEGE DAY.

Alumni Tell the High School About Their Universities.

Yesterday was "college day" at the regular monthly meeting of the Star and Crescent Society of the High School. Alumni of the school told of their experiences at the University of California, Leland Stanford, Jr., University and Harvard, and there was much between the brief addresses.

Miss T. B. Breen, who talked about life at the University of California, and warned prospective students of the State University of what they must not do on the campus and about the buildings if they want to keep from being known as freshmen. Russ Avery, who graduated from the High School in '90, from the State University in '94 and in '97 from the Harvard law department, told about student life at Harvard. Every Davis chose as his subject "What Stanford Stands For," declaring that it is a pioneer in modern methods and in modern university aims. Miss Jessie Knepper discussed college life and work at Stanford. Kay Crawford talked about the famous star raid, telling how, after winning the intercollegiate baseball championship from Stanford, his fellow-students of the University of California captured the cardinal broadsword, the Stanford mascot, and carried it back to Berkeley in triumph, there to be kept forever more as a sacred relic.

The Star and Crescent will hold one more meeting this term, during week after next, when a play will be presented by the senior B class and gold Star and Crescent pins will be all the members of the graduating class.

## DROWNED IN ALASKA.

Sudden Death of Fred H. Haven of Los Angeles.

Fred H. Haven, a young man of promise, and well known in Los Angeles, was drowned two weeks ago in Prince William Sound, Alaska. The news of his death has just reached his mother, Mrs. Mary M. Haven, in a private letter from Omar J. Humphries, dated June 3.

Haven was fishing and had caught a large salmon. While standing in his boat he slipped, lost his balance, and fell overboard. Being unable to swim he could do nothing to save himself and before help could reach him he was drowned.

The drowned boy was in Alaska in the employ of the Pacific Steam Whaling Company, working in one of its canneries. He graduated from the Los Angeles High School last February. While a student there he played on the football team and was prominent in student affairs. For the past six years he has been connected with the carrier department of The Times. His father, G. S. Haven, is dead. His mother, a brother and a sister live at No. 1609 South Union avenue.

## They Paid for Fighting.

C. F. Le Roy and E. Blake, after indulging in diverse schoons of steam beer, had a pugilistic encounter on Main street Thursday evening. In the Police Court yesterday, on complaint of Policeman A. L. Smith, they were fined each \$5 for disturbing the peace.

## THRESHERS.

An Experiment Among Farmers.

I am a farmer and have plenty of hard work to do, but when I am real tired a cup of Postum Cereal Food Coffee is more benefit to me than any drink I can get. Wife and the whole family use Postum now, and you couldn't get them to go back to the old-fashioned coffee. Our family doctor recommends it to his patients, and uses it himself in his family.

One time we went to town for Postum, but the store sent us a package of —, an imitation of Postum. We discovered it as soon as it was cooked, and had to throw it away, for once accustomed to what we believe is the only genuine cereal coffee, we can't drink the imitations.

When the threshers were at our house last fall we served them with Postum Food Coffee, and when we explained what it was they all said they liked it, and some drank as much as three cups full. Two of my nearest neighbors use it regularly. One of our neighbors used it for a little while, but gave it up, and we found out it was because they didn't boil it long enough. That is the only way to get a good taste out of Postum. We attribute our present good health to leaving off the old-fashioned coffee and using Postum. Jas. Picht, Colo. Iowa.

## SILVERWOOD'S

### SATURDAY SELLING

#### Of Men's Furnishings and Hats

Is especially worthy of note by all who want fresh, bright, up-to-date goods at moderate prices.

Shirts—  
The hot-weather kind—correct, choice patterns in both the well dress fronts and comfort-giving collars. \$1.00  
Well made Negligee Shirts, dressy effects; \$2.50 down to ..... 50c

Underwear—  
Extra value in the proper weight baby's ..... 50c  
Soft finish, summer-weight wool ..... 75c

Neckwear—  
A brilliant showing of strings and bows (just in) ..... 25c  
Summer Neckwear, 50c ..... 10c

Hats—  
High Grade Pearl Dress Hats ..... \$2.50  
Jumbo Straws and fine Split Brads ..... \$1.50

## THE PUBLIC SERVICE COSTLY EXPERIMENT

CITY MAY LOSE BY READVERTISING FOR BIDS.

What Has Been Done With the Bond Money and What Remains to Be Done—Fender Ordinance to Be Adopted.

A Piano is the Cause of a Deal of Dismal Discard and Mrs. Richardson Sues Bartlett Bros. and E. S. Johnson.

The Bethel Adultery Case Continued All Day Yesterday and Into the Night—Damage Suit Against the Traction Company.

If the City Council adopts a recommendation made to it by the Board of Public Works and Board of Fire Commissioners yesterday, the contract for the construction of the twelve proposed engine-houses will be awarded on a bid of \$46,950, which is over \$3000 more than another contractor offered to build the houses for when the matter was first submitted for bids. It is now certain that there will be a large shortage in the fire department fund unless some of the plans are so changed as to greatly reduce the cost. Fire Commissioner Kuhn estimates this deficit at more than \$15,000.

The Board of Public Works yesterday took up the matter of ordering the street railway companies to equip their cars with safety fenders. Several devices were presented, but no final action was taken. It was announced that the proposed ordinance ordering fenders will soon be adopted.

The question of advertising for sale the franchise for a street railway on West Eleventh street was to have been considered yesterday morning by the Board of Public Works, but at the request of counsel for one of the interested companies the matter was again continued for a week.

The City Assessor is holding daily conferences with representatives of the banks of the city on the subject of taxation of their stock. No definite decision has been made as yet, owing to his inability to agree to what some of the bankers desire in the matter. It is probable that the Board of Equalization will have to settle the question of assessments against some of the banks.

Last November, Mrs. Ella W. Richardson of Tropic thought herself to purchase a piano, and answered a newspaper advertisement, in which an instrument was offered for sale, that had caused her a great deal of trouble. She alleges in her complaint filed yesterday against Bartlett Bros. and E. S. Johnson that she has been bunched into buying a piano of poorer grade than she bargained for, and she wants an order from the court restraining Johnson from instituting proceedings against her for the recovery of the instrument, which she has not yet finished paying for.

Samuel Merrill brought suit against the Traction Company last December for \$10,000 damages for injuries alleged to have been sustained while a passenger on one of the cars now in this city over a year ago. The case is now on trial in Department Three.

(AT THE CITY HALL.)

LOWEST BID ACCEPTED.

ANOTHER WRANGLE OVER THOSE NEW ENGINE-HOUSES.

Large Deficit in the Fire Department Budget Issue Certain—Street-car Fenders to Be Ordered Soon. More Bankers Before the Assessor.

At a joint meeting of the Board of Public Works and Board of Fire Commissioners yesterday afternoon the bids recently received for the construction of twelve new engine-houses were considered, and after a discussion which lasted nearly an hour, it was recommended to the Council that the lowest bid, that of Henry Aufenkamp, \$46,950, be accepted.

At the beginning of the session Commissioner Herron spoke at length against accepting any of the bids and in favor of referring the entire matter back to the Council for settlement. He referred to the fact that the Council had paid no attention to a former recommendation of the joint board when they had favored a bid which was \$3000 lower than that which was then before the committee. He said that the lowest bid before accepted by them was \$43,735, and that the bid of W. E. Thornton, \$43,735, be accepted, if it was possible to do so.

Mayor Eaton, in seconding Mr. Herron's motion, asserted that he did not like the action of the Council in having rejected the former lowest bid. "If we accept what is now the lowest bid," said he, "and the Council awards the contract to Aufenkamp, it will result in a clear loss of more than \$3000 to the city. There may have been a reason for this action by the Council and again there may not have been." He did not propose to vote for any of the present bids. Then he stated that he was in favor of using brick for the new houses, wherever that material was available. He had had an estimate made of the cost of one of the houses if brick were used, and while that estimate was about 15 per cent. more than for a frame building, the Mayor thought it was worth the difference. He referred to the fact that the prices of lumber had been increased within the last few weeks, and for fear that there might be another rise in prices he was opposed to the suggestion that another call for bids be made.

Commissioner Herron, in favor of the action proposed by Mr. Herron, could not understand why the Council had turned down the former recommendation, unless it was because of the suspicion of a combination among the contractors of which there was no evidence. He favored the acceptance of the lowest bid before the bids became higher.

Councilman Pierce favored the Thornton bid, provided it could be accepted now, but when it was explained to him that such a course was not possible, he, too, favored accepting the lowest bid. When a vote was taken on Mr. Herron's motion to refer the matter back to the Council only he, the Mayor and Commissioner Mathews, voted in favor of it, and it was declared lost. Fire Commissioner Kuhn then moved that the lowest bid be accepted, and the motion was adopted. This decision will give the engine-houses to him who would have

to pay had the first bids been accepted. Just why the bids were advertised at a time when there was an advance in the prices of building materials has never been explained. The motion to advertise was voted against only by President Silver, and the wisdom of this action to it has been shown by the increase in the bids.

The purchase of engine-house sites, fire apparatus and in short the entire expenditure of money from the fire department bond issue has been accompanied by complications which have been very peculiar at times. That there will be a deficit in the amount of the bond issue and that there will not be enough money from that source to pay for the contemplated improvements is certain. The extent of that deficiency cannot be stated exactly, but it can be closely estimated. Following is a statement of just what has been expended from the bond issue to date:

Sites ..... \$46,950  
Seven engines ..... 23,000  
Seven combination wagons ..... 14,110  
Two trucks ..... 4,255  
Electrical apparatus ..... 11,175  
Harness ..... 280  
Horses ..... 175  
Total expenditures ..... \$100,455

The estimate of future expenditures which must be made to complete the fire department improvements contemplated are:

Lowest bid for 12 houses ..... \$46,950.00  
Horses ..... 1,380.00  
Electrical appliances ..... 2,000.00  
Hill-street house ..... 9,000.00  
Aliso-street house ..... 8,000.00  
Architect's fees ..... 2,347.50  
Total, including expenditures ..... \$171,732.50

The total amount of the bond issue was \$150,000, and to this must be added \$7000 received in premium, making a total of \$157,000. If the estimated expenses necessary to complete the improvements are correct, there will be a deficit of \$13,732.50. This, however, does not include architect's fees on the Hill-street and Aliso-street houses.

FENDERS DISCUSSED.

Board of Public Works Tries to Decide Upon Several Models.

At the regular meeting of the Board of Public Works yesterday morning the question of providing that all street railway companies of the city must equip their cars with safety fenders was considered, the measure having been referred to that board by the Council several weeks ago. It was expected that a number of inventors of fenders or agents for them would appear, but only two were present. Manuel Fernandez's patent was presented. It consists of a simple device and the only objection to it was that it would extend too far in front of a car, but this, the inventor asserted, was more than offset by the virtue of his device.

Ex-Mayor Snyder appeared as the agent for the Hunt fender, a device which is in use in many cities in Indiana and Kentucky. His device consisted of a shield in front of the car, equipped with it. This shield was made of steel. When the car was equipped strikes any object it automatically drops a fender under the car before the front wheels, and it is impossible for any object to reach the wheels. Mr. Snyder presented numerous recommendations of his fender and displayed a working model of it. The members of the Board were more than satisfied with it and declared that it would be one of the fenders that they would recommend to the Council. Inasmuch as there are a number of other devices to be examined the Board decided to defer final action in the matter until a later date.

Attorney W. E. Dunn appeared in the interests of the Los Angeles Railway company, and he said that the company might know what particular styles of fenders were desired on the cars. Whatever the Council recommended the company will accept, and he promised that the best fender would be adopted regardless of the cost. He explained that under the new law which has been passed, the company which did not equip its cars with safety fenders could not hope for success in any suit for damages which might be brought by any person who was injured by a car. The Traction Company was not represented at the meeting. The Board will probably act on the matter at its next meeting.

WATER FOR WESTLAKE.

Water Overseer to Increase the Supply There Once More.

The Board of Park Commissioners called the attention of the City Council at the last meeting of that latter body to the scarcity of water in Westlake Park and suggested that the first thing to be done was to arrange the gates in the zanja near Second and Fremont streets as to increase the flow of water into the park lake. It was expected that objection would be made to this by the owners of an ice factory situated near the zanja, but the Water Overseer has decided upon a plan of action which will leave the owners of that plant to assert their rights to the use of that water. The plan is to stop up the gates in the zanja that less water will flow to the ice factory and much more will be carried into the park lake. He does not know just what kind of a contract the ice company has, but he considers that the easiest way to settle the dispute is to stop up the gates and water and then let them produce their contract. It was stated at the Water Overseer's office yesterday that the ice company has its power also from the city, but payment of any rental or other consideration for the privilege. The Water Overseer directed the Attorney to investigate the matter at its next meeting.

FRANCHISE SUBJECT POSTPONED.

Attorneys Secure Another Delay in Important Matter.

At the request of attorneys interested in the application for a street-railway franchise along West Eleventh street west of Georgia street, the Board of Public Works yesterday decided not to take action upon the petition. This is the second continuance of the matter, the first being for the same reason. It was stated yesterday that if the proposed franchise is submitted to bids there will be a great rivalry in the bidding. It is not certain that the Council will take any action, as it is petitioned for, however, for the law with reference to franchises was not amended by the last Legislature, and before the question of the body there was a difference of opinion as to the legality of the Council granting such franchises.

The people along the line of the proposed railroad greatly desire that it be built, and they have been using every possible influence upon the members of the Council to induce a favorable consideration of the matter. They argue that the distance between Ninth and Eleventh streets is so great as to make it very inconvenient for them to use the street cars, and they are deprived of as good street-car facilities as most other parts of the city enjoy. If the franchise is granted to either of the competing companies it will result in

the construction of a railroad west from Eleventh street to Hoover, and possibly farther west. This road would pass through a thickly-populated section of the city and would, it is thought, add greatly to the value of property in that section.

Questioning Bankers.

In response to citations issued by the City Assessor, representatives of the Bank of California, and the Citizens Bank, appeared at the office of that official yesterday afternoon and were questioned as to the condition of those banks, especially with reference to the actual value of their stock, based upon the capital stock, surplus and undivided profits. The session was similar to that of the day before when a number of other bankers were questioned on the same matters. Each of the representatives were put under oath and interrogated at length. Like the others who had been similarly dealt with they protested formally against the proposed action of the Assessor in assessing their stock, asserting that they had no jurisdiction. But little was accomplished as the Assessor had not had an opportunity to closely examine the statements filed by the banks. Today other representatives of banks will appear to answer questions as to the property of their corporations.

Leaves of Absence Asked.

Police Surgeon Ralph Hagan has filed in the City Clerk's office a request to the Council to grant him a leave of absence for ten days beginning June 25. He states that he will put a competent man in his place during his absence from the city. The petition will be granted.

Only One Petition.

The Board of Public Works had only one petition to consider yesterday after having disposed of the fender and franchise matters. That was the petition of a woman who owns a six feet in width be constructed on both sides of Manitou avenue between Avenue 21 and Alta street. The Board recommended that this petition be granted.

AT THE COURT HOUSE.

GRIEF OF GRIEVANCES.

A PIANO IS THE CAUSE OF A DEAL OF DISCORD.

Mrs. Ella W. Richardson of Tropic Brings Suit Against E. S. Johnson and a Music Dealing Firm.

Bartlett Bros., the music dealers, and E. S. Johnson are being sued in the Superior Court by Ella W. Richardson and her husband, E. W. Richardson. The matter in litigation is a piano, and thereby hangs a woefully tuncful tale.

Last year, about the middle of November, Mrs. Richardson was contemplating the purchase of an instrument, and she alleges, E. S. Johnson represented to her that he had a piano for sale which he had brought from Chicago, and that it had cost him \$400 only four months before. She says that she saw the piano and was very much pleased with it, and that she had a piano for sale which he had brought from Chicago, and that it had cost him \$400 only four months before. She says that she saw the piano and was very much pleased with it, and that she had a piano for sale which he had brought from Chicago, and that it had cost him \$400 only four months before.

These representations Mrs. Richardson says, were made by Johnson at his private residence, where she had gone in answer to an advertisement for the sale of the piano, and that while Johnson was relating the merits of his instrument, she said something to him into the room and represented that she was an agent for a local firm of piano dealers and wanted to purchase the piano. He said that she said to him that she was an agent for a local firm of piano dealers and wanted to purchase the piano.

The question as to the guilt or innocence of Luther Peaslee, who has been charged with the last five days in Department One, charged with adultery, is evidently proving a vexed matter with the jury. They were unable last night to reach a verdict. Although they retired about 3:30 p.m. yesterday, the jury did not return their instruction after 8 o'clock in the evening, no verdict could be agreed upon, and at 10 o'clock they were locked up for the night. Their standstill is a serious matter.

COULD NOT AGREE.

The Jury in the Bethel Case Fall

on a Verdict.

The question as to the guilt or innocence of Luther Peaslee, who has been charged with the last five days in Department One, charged with adultery, is evidently proving a vexed matter with the jury. They were unable last night to reach a verdict. Although they retired about 3:30 p.m. yesterday, the jury did not return their instruction after 8 o'clock in the evening, no verdict could be agreed upon, and at 10 o'clock they were locked up for the night. Their standstill is a serious matter.

An Alleged Nuisance.

Last February Andrew Glasel, Jr., swore to a complaint in Justice James' court charging James Cook with maintaining a public nuisance in the form of a slaughter-house and other works near the San Fernando road, between this city and Tropic. The warrant was served yesterday. Cook has been ordered to remove the nuisance within a few days or to find this charge hanging over him. The complaint is an old one and will probably be held until the summer of 1900, when the business last April. He was arraigned in the Township Court yesterday morning, and was released on his own recognizance.

BRIEFS.

Miscellaneous, Legal, and Other Items.

MINING CORPORATION. The Stephens Process Company filed its articles of incorporation yesterday. It is to be a mining concern and will have its principal place of business in Los Angeles. Capital stock is \$1,000,000; amount actually subscribed \$425,000. The directors are Albert G. Stephens, Bruce Grimes, Frank C. Grimes, Arthur F. Levitt, Isaac S. Smith and Ricardo Johnson.

BAUER DEPOSITIONS. Attorneys are to take the deposition next week of Theobald Bauer and the alleged Mrs. Bauer, in the case brought by the woman to establish marital rights with her husband, who was a resident of the world. Mrs. Bauer is said to have had two former husbands, while Bauer has also been married before.

INSANE. Ah Foy was ordered committed to the asylum for the insane at Highland by Judge Campbell yesterday on recommendation of Dr. Wernick and Dr. Cates. The celestial laborer under the delusion that he hears voices above and says he detects bad omening on heavenly mansions. The thing that bothers him most is the belief that "The Great God has washed his bones away."

her back the \$53.50 that she had paid him on it, but he said no.

Then Mrs. Richardson brought a replevin suit and regained possession of the piano from Johnson and has the instrument now in her own parlor. The reason she gives for bringing Bartlett Bros. into the suit is that Johnson was an employee of the music dealers, and furthermore she alleges that this is insolvent, not on the assessment roll, and unable to reimburse her even if she did institute proceedings against him. From the judgment rendered against her in the case tried at Burbank, Mrs. Richardson has taken an appeal, and the judgment is now pending trial in Department Five and is set down for July 12.

The ground upon which Johnson sued her, Mrs. Richardson says, was that he procured her signature by trickery. This view she is inclined to take, because of stipulations in the document of which she was unaware, and also because she remembers distinctly of signing with a black lead pencil, whereas the signature on the Johnson appeal and the matter is now pending trial in Department Five and is set down for July 12.

STEPPED INTO A HOLE.

Samuel Merrill Asks Damages from Traction Company.

Samuel Merrill commenced suit last December against the Los Angeles Traction Company for \$10,000 damages on account of injuries alleged to have been received while riding on one of the company's coaches in this city over a year ago. The case is now on trial in Department Three, Judge Shaw sitting in place of Judge York.

Merrill alleges in his complaint that on June 1, 1898, he boarded the car as a regular passenger and proceeded to take a seat inside, but in his effort to do so he stepped into a hole in the floor about four feet in length and one-half feet in width. He says he did not know that the floor had been removed, and he was not informed of the fact by either the conductor or the motorman, although they both saw him enter the car. The car was soon under a rapid rate of speed, Merrill avers, and from his fall he received serious and painful injuries, which caused him, and still cause him, he says, grievous mental suffering, and from these injuries he feels that he will never recover. He further states that he is incapacitated from performing his usual duties, and is unable to take any kind of exercise. For these reasons he has brought suit for \$10,000 damages, and also to recover \$180 which he says he has expended for medical aid, nurse hire and medicines.

In an amended answer which the Traction Company filed on Thursday, it is stated that the car was in good condition when it was driven by Merrill, and that he was not injured by the hole in the floor of the car, as alleged in his complaint.

COULD NOT AGREE.

The Jury in the Bethel Case Fall

on a Verdict.

The question as to the guilt or innocence of Luther Peaslee, who has been charged with the last five days in Department One, charged with adultery, is evidently proving a vexed matter with the jury. They were unable last night to reach a verdict. Although they retired about 3:30 p.m. yesterday, the jury did not return their instruction after 8 o'clock in the evening, no verdict could be agreed upon, and at 10 o'clock they were locked up for the night. Their standstill is a serious matter.

An Alleged Nuisance.

Last February Andrew Glasel, Jr., swore to a complaint in Justice James' court charging James Cook with maintaining a public nuisance in the form of a slaughter-house and other works near the San Fernando road, between this city and Tropic. The warrant was served yesterday. Cook has been ordered to remove the nuisance within a few days or to find this charge hanging over him. The complaint is an old one and will probably be held until the summer of 1900, when the business last April. He was arraigned in the Township Court yesterday morning, and was released on his own recognizance.

BRIEFS.

Miscellaneous, Legal, and Other Items.

MINING CORPORATION. The Stephens Process Company filed its articles of incorporation yesterday. It is to be a mining concern and will have its principal place of business in Los Angeles. Capital stock is \$1,000,000; amount actually subscribed \$425,000. The directors are Albert G. Stephens, Bruce Grimes, Frank C. Grimes, Arthur F. Levitt, Isaac S. Smith and Ricardo Johnson.

BAUER DEPOSITIONS. Attorneys are to take the deposition next week of Theobald Bauer and the alleged Mrs. Bauer, in the case brought by the woman to establish marital rights with her husband, who was a resident of the world. Mrs. Bauer is said to have had two former husbands, while Bauer has also been married before.

INSANE. Ah Foy was ordered committed to the asylum for the insane at Highland by Judge Campbell yesterday on recommendation of Dr. Wernick and Dr. Cates. The celestial laborer under the delusion that he hears voices above and says he detects bad omening on heavenly mansions. The thing that bothers him most is the belief that "The Great God has washed his bones away."

Big Reduction on Men's and Boys' Shoes. Odd Single Shoes 25c.

from the estate of Maj. George Bonebrake. Yesterday morning Judge Campbell confirmed the executor's sale of 84 shares of the stock of the Los Angeles National Bank to W. D. Woolwine for \$100 per share.

DIVORCE DENIED. Judge Campbell yesterday denied the application of Louisa Kuns for a divorce from her husband, Nathaniel Kuns, the Santa Monica National Bank cashier, in the complaint as drawn up and the case was dismissed.

TO RECOVER. A. B. Roth has begun suit against F. M. Bradshaw to recover on six alleged indebtednesses as follows: \$1482.81, \$1074.32, \$1070.65, \$326.50, \$229.41, \$229.45, all bearing interest at the legal rate.

INCORPORATED. Articles of incorporation have been filed by the First Christian Church of Santa Monica. Three directors are named, as follows: F. H. Johnson, Frank Brandenburg and S. G. Morrison.

DIVORCED. Etta A. Mullen was granted a divorce from James Mullen by Judge York yesterday on the ground of desertion. Mullen is said to have gone away with the wife of Andrew Smith.

THEIR FATE MADE KNOWN.

All the Teachers Dismissed Have Been Formally Notified.

Education has decided to drop from the city schools have been notified of their dismissal. Most of them are moving heaven and earth to secure their reinstatement.

The members of the board say that all possible consideration has been shown the teachers who were found incompetent. The annual inspection of the teaching force has been made this year, and the results were not so good as those of the previous year. The board has been notified in ample time to look about them for employment elsewhere.

This year the board has inaugurated a new system of rating the teachers. The results of the rating of the teachers, the department supervisors and the principals reported to the board concerning each teacher. Each teacher was given a numerical rating, a definite number of credits being allowed for each of a number of points, such as discipline, knowledge, personal appearance, neatness, and professional capacity. The members of the board say that it was gratifying to find that the ratings of the teachers were generally high, and that the rating system has been put to the test of the force on a civil-service basis, so far as tenure of office is concerned.

Over 300 new applications have been asked for positions in the city schools for the coming year. There are only about 500 teachers altogether. There is to be no increase of that number at present, so the only new teachers selected will be those needed to fill the forced or voluntary vacancies which there will be at the end of the year.

BIERCE ON "THE MAN WITH THE HOE."

[Napa Register.] Poetry of "The Man With the Hoe" brand pronounced "positively mischievous" by the Los Angeles Times, and "neither true in sentiment nor admirable in form" by the Bierce. And the discerning reader of the verses will in most cases agree with the criticism.

Here are a few sentences from Bierce's pen: "All at once he (Markham) publishes a poem, which, despite some of its noble lines, is either true in sentiment or admirable in form, which is, in fact, addressed to peasant understanding and soured hearts. The man who writes it is a laborer spreading the gospel of hate known as 'industrial brotherhood,' a 'walking delegate' diligently inciting a strike against God and clamoring for repeal of the laws of nature. Saddest of all we find him immodestly promoting his own 'boom.'"

Boston's Bad Breed.

[Buffalo Commercial.] In Boston "they say" that the "bad breed" of such things "dear, dear!" The other day, the Listener tells us, on a car en route from Cambridge to Boston was a boy about 12 years old—a very proper little boy, with gloves and a high collar. He was holding forth to two little girls on various subjects, and presently he said:

"I never in my life have seen a play that I was really ashamed to have seen but once, and that play was 'Sweet Service.'"

"Why, what's the matter with that?" asked the girls.

"Oh, nothing's really the matter with it—it's a good enough play, and all that, but it isn't educational, like Shakespeare and 'The Christian,' you know."

In Boston they do not lack these "little monsters; they let them grow up to become secretaries of anti-imperialist leagues."

"HOLE-IN-THE-WALL."

IT IS PEOPLED BY THE MOST DESPERATE CHARACTERS.

A Man Who Claims to Have Been There Says It Will Take a Small Army to Rout the Desperados.

[Special Dispatch to San Francisco Call.] BOISE (Idaho), June 13.—It was morbid curiosity that led Leonard McGlinn to "The Hole-in-the-Wall" in Wyoming; it was fear that caused him to creep away down the narrow gorge leading from the hole and make his way to the nearest railway point.

He heard of the plans of the men who robbed the Union Pacific train. He knew they would return to "the Hole," and he was afraid to go. He did not want to be mixed in the affair, so he fled in the darkness, beating his way to Boise and going hence to his home in California. He came here for assistance from a friend who is a newspaper man, and the latter obtained permission to relate after McGlinn's departure some of the things he told him of "the Hole" and its inhabitants.

McGlinn drifted into Wyoming, and having heard of "the Hole," decided to visit it on a hunting expedition. As a stranger, he found it a law-abiding district. As a friend, he found it a place of refuge for thieves and murderers of the most vicious type. He found they were prepared, while apparently leading the most peaceful lives, to resist by force of arms invasion by millions of men.

McGlinn says the plot to rob the Union Pacific train was hatched in "the Hole" by shrewd criminals and executed by daring desperadoes. He said that the desperadoes were employed as cowboys of the instigators of the crime. If he knew the names of those who did the work he refused to disclose them, but he said they were to return to "the Hole" to divide the spoils with those who sent them out. He further said the robbery was the first of a series planned and that another outfit was at present out from "the Hole" preparing to strike again at the first opportunity.

The men McGlinn said, who robbed the Union Pacific train, would be reinforced by all the inhabitants of "the Hole" and would declare the war on a small army to rout the desperadoes.

Not only was the gorge closely watched, but the secret trails as well. McGlinn knew of the trails, he said, some of those who had been in "the Hole" had left unceremoniously and those left behind feared they would be shot.

He gave 300 new applications have been asked for positions in the city schools for the coming year. There are only about 500 teachers altogether. There is to be no increase of that number at present, so the only new teachers selected will be those needed to fill the forced or voluntary vacancies which there will be at the end of the year.

BIERCE ON "THE MAN WITH THE HOE."

## City Briefs.

The official National Educational Association souvenir, which is being compiled under the direction of the Chamber of Commerce local committee, will contain fifty full-page half-tone views and much descriptive matter about Southern California. It will go to press June 20. Advertisers who desire to make announcements that will go into the hands of the visiting teachers, besides being sent by them to their many eastern friends, should hand in their copy without delay to the manager of the Times-Mirror Printing and Binding House, who has the work in charge.

The Rev. S. Hecht, D.D., of Milwaukee, Wis., will deliver two lectures at the temple of the congregation B'nai B'rith on Friday evening, the 16th, at 7:45, and Sunday morning, June 18, after the lectures a public reception will be tendered the reverend gentleman. Everybody is cordially invited to attend.

The Times business office is open all night and liners, death notices, etc., will be received up to 1:30 a.m. Small display announcements may be sent in up to that hour, but large display ads. cannot be attractively set. It is brought in later than 3:30 p.m. Telephone Main 23.

First M. E. Church, on Broadway, Dr. Cantine will preach tomorrow a baccalaureate sermon to the graduating class of the State Normal School, 11 a.m.; subject, "Science vs. Religion." Song service and sermon in evening.

Special sale of pineapples today; immense shipment just arrived. Try our fancy mountain pineapples and ripe apples. Ludwig & Matthews, Pitt Market. Tel. Main 550.

Pineapples, two-horse truck load, 401 Spring street, corner Fourth. Every apple warranted. Big sale all day. Telephone Brown 895.

Large importation of Mexican drawn work just received at Campbell's, 325 S. Spring St. Special sale begins Monday, June 19.

A special display of Copley prints will be made for one week at Elliott's Art Rooms, No. 421 South Spring street.

All kinds plain machine composition at 30 cents per thousand ems, standard measure, at Times job office.

Missionary day at Peniel Hall tomorrow. Dr. J. H. Matthews, Pitt Market, will speak.

Finest cabinet photos, reduced to \$1 and \$1.75 a dozen, Sunbeam, 236 S. Main.

Great clearance sale of curtains, etc. City of London, 213 S. Broadway.

Dr. Bonoff, practical furrier, No. 247 South Broadway, opposite City Hall.

5c, 10c, shells, Winkler's, 246 S. Broadway.

Thomas Miller was arrested by Police Officer Smith last evening for maintaining a nuisance, in the shape of garbage, in Mott alley.

United States Commissioner Owen yesterday ordered the deportation of Wong Jeng, a Chinaman, arrested a short time ago by Chinese Inspector Putnam as being unlawfully in the country.

The Brownsberger Post Graduate Club held its regular weekly meeting Thursday evening, and the topic, "Cumulative Phrasing," was discussed.

A short illustrated lecture, given with blackboard illustrations, and the evening was devoted to an analysis of the subject.

Albert Labosche, a driver for the City Transfer Company, was arrested yesterday afternoon on a battery charge. It is alleged that he circulated reports concerning J. V. Hendes, not to the latter's liking. Hendes, it is alleged, called Labosche a direct descendant of Annanias and received a drubbing.

Offie Thompson, Albert Webster, Mike Muller and Ed Dorsey, tough boys were arrested on Boyle Heights last yesterday afternoon by Policemen F. Field and Dyke for malicious mischief.

On Cummings avenue a small bottling car is run which connects First street with Hollenbeck Park. The boys succeeded in turning a switch yesterday afternoon and running the car off the track.

**FLOWER MISSION DAY.**  
Hundreds of Bouquets Scattered Among the Sick and Poor.

At the meeting of Central Union of the W.C.T.U. reports were received of the observance of Flower Mission day. Once a year, on the birthday of Jennie Cassiday, the first national superintendent of the flower mission department of the W.C.T.U., the members spend a whole day giving flowers to the sick. The woman who originated the flower mission and whose memory is thus honored was for twenty-nine years a confirmed invalid, never leaving her bed, but she found strength to inspire this charity. The local superintendent of flower mission work reported that she herself distributed over 500 bunches of flowers, to each of which was attached a Scripture text. About 300 more bouquets were distributed by other members of the Central Union. The other unions of the city were also busy and the number of bunches of flowers given out was very large.

**INDEPENDENT ORDER OF FORESTERS, NOTICE.**  
Members of Court Morris Vineyard, No. 522, I.O.F., will meet at their hall on Sunday, June 18, at 1:30 p.m. to attend the anniversary of the order, at Foresters' Temple, First and Spring streets. All members of the order are cordially invited.

CHAS. PLETZ, R. S. J. FERRIS, C. R.

**ORIENTAL GAMES, REDONDO BEACH.**  
Football, tumbling, turning, Chinese band, lots of fun. Santa Fe trains go 8:30, 9:55 a.m.; 1:30, 5:35, 7 p.m. Returning last train leaves the beach 8 p.m.

At 11 a.m. today the Opening of the Royal Restaurant on Spring, between First and Second, will take place. The public is cordially invited while their patrons will lunch. A fine orchestra will play, consisting of the Seven Venetian Sisters, the wonderful mandolin players.

## ROYAL BAKING POWDER

**Absolutely Pure**  
Made from most highly refined grape cream of tartar.  
Makes pure, delicious, wholesome food.

## PAINFULLY BRUISED.

Horse Run Away and Threw Occupants Out of a Wagon.

Mrs. Oscar Nunnally, sister of Ralph, Robert and Frank Dominguez, suffered a painful accident last night by which she received three severe scalp wounds. Mr. and Mrs. Nunnally recently moved from Mrs. E. M. Cleveland's residence at No. 524 West Third street, to No. 2208 Wall street. Last night Mrs. Nunnally drove a single rig to her former residence, accompanied by her four-year-old son Herbert and Mrs. Roberts, a neighbor, to get a few things which she had left there.

On returning the horse took fright on the Fourth-street hill, between Olive and Hill streets, and ran away. The occupants were thrown from the wagon on Hill street, between Fourth and Fifth, where the patrol wagon was summoned to take them to the Receiving Hospital. In addition to being severely shaken up, Mrs. Nunnally sustained two severe scalp wounds on the back part of her head and one in front. Little Herbert received a bad bump on the back of his head, and Mrs. Roberts was painfully bruised on the arms. Their injuries were dressed by Dr. Hagan.

Mr. Nunnally is a foreman in Sam Hellman's hardware establishment on north Spring street. He has been coming to the house with eye trouble for the past three months, only returning to work last Monday.

**HANCHETTE'S CONDITION.**  
He Was Not Expected to Survive Until This Morning.

Last night only a slender thread hung between Earl Hanchette and eternity. The young murderer's life was rapidly ebbing away, and Dr. Hagan held out no hope of his survival until the morning. His brother Rex called to see him again yesterday and was admitted, but the young wife-murderer's mind was wandering, and he was out of his head the most of the time during the afternoon.

Mrs. Moyer, who so tenderly nursed Mrs. Hanchette since the birth of her child, a little over four weeks ago, up to the time of her death last Wednesday morning, found two letters yesterday which were recently written by the dead woman's sisters. They were such loving and one loving sister would write to another, and were conciliatory in tone toward young Hanchette, telling him that after his wife had killed her folks they would send for him as soon as possible, and would take steps to start him in business, so that he could begin life anew.

Mrs. Moyer will start for Des Moines, Iowa, this morning with the body of Mrs. Hanchette, taking the latter's four-week-old baby with her.

**Two Convicted.**  
The jury in Justice Morgan's court, before whom was tried the cases of Gin Sney, Charles Quong and Ah Dock, charged with maintaining a place on East First street for the sale of lottery tickets, after being out six hours, returned a verdict of guilty as to the two latter, but acquitted the former.

The jury retired at 5 o'clock p.m. and remained out until 11 o'clock last night. The Chinese were arrested on May 15 by Policemen Fowler and Sgt. Smith.

**Palms of Victory.**  
They Will Wave in Honor of the Teachers' Convention.

A call for 300 date-palm leaves and 2000 fan-palm leaves has been issued by F. Q. Story, chairman of the Committee on Decorations, who will direct the work of adorning the city streets in honor of the delegates to the N.E.A. convention. People who possess palms would do well to postpone trimming them until July, then, by notifying the Chamber of Commerce or the Decorating Committee, they can have the palm leaves cut for and cut.

The Educational Exhibit Committee was at work yesterday assigning space for the exhibits, which have already been arranged by the Finance Committee also met yesterday afternoon.

A letter was received at headquarters yesterday from State Superintendent of Public Instruction Thomas J. Kirk, which said that "there is every encouragement for us to realize our highest anticipations concerning attendance and entertainment." A letter received from J. A. Barr of Stockton expresses the same sentiments.

**PERSONALS.**  
Thomas L. Woolwine of the United States District Attorney's office returned yesterday morning from a six weeks' visit to his home in Kentucky.

Horace G. Smith of Foxboro, Mass., is visiting his brother, Sherman Smith, of this city. The latter was late clerk of Department Five of the Superior Court, and is slated as the new superintendent of the Whittier State School.

## The "Mannish" Last.

The newest style of "The Ebell" shoe is made on what is termed the "mannish" last. It combines the gracefulness of womanly outlines with the sturdy practicability of manly broadness, a style as refined and modest as it is fashionable; proper now for correct dressers; 21 other styles, less mannish, for women who prefer thin turned soles and more pointed toes. All styles of "The Ebell" are

**Tooth Brushes** A chance that comes only to stores that have buyers in New York every minute in the year. Some regular 25c and a few regular 35c tooth brushes—4 or 5 rows of bristles, bone or mahogany handles; pure sulphur bleached bristles; choice today at... 12 1/2c
